Board of Selectmen

Seated left to right — Margaret H. Spengler, Harry P. McCabe, Chairman, George K. Rugg
Standing left to right — Arthur D. Saul, Jr. and Robert B. Walsh

At the Annual Town Election in March of 1974, Mr. Arthur D. Saul, Jr., was re-elected to a three year term on the Board and Mr. Robert B. Walsh was elected to a one year term filling the unexpired term of John W. Bullock who resigned from the Board in January. Mr. Bullock resigned because increased responsibilities were assigned to him at the General Court whereat he serves as the State Senator from the 4th Middlesex District.

In accordance with the Town Manager Act, the Selectmen were required to fill the vacancy until the Town Election. The Selectmen notified the Moderator of the vacancy and at a meeting of the Board held February 4, 1974, Mr. Bullock was appointed to serve until the Town Election. This was the third time in the history of the Town Manager Act that the procedure of filling a vacancy had to be used. Without this provision of the Town Manager Act it would have been necessary to call a Special Election in the month of February at great expense to the taxpayers.

The organizational meeting of the Board was held after the Town Election and Mr. Harry P. McCabe was elected Chairman and Mrs. Margaret H. Spengler was elected Vice-Chairman.

A major effort of the Board this year was working to secure Special Revenue Sharing Funds. Early in the year the Selectmen and Town Manager evaluated legislation before the Congress related to Special Revenue Sharing, and determined that the Town could be short-changed a considerable amount of money because of our Federal Classification under the program.

It required several months of working with Senators Brook and Kennedy and Congressman Thomas P. O'Neill, Jr., to have the Federal legislation changed to allow the Town to be recognized as a community that was eligible to receive a grant directly from the Federal Government. Thus Arlington was eligible for substantially more funds under the Special Revenue Sharing Program. The Federal

regulations required the Town to have citizen input into development of an application. Therefore, the Board held three public hearings to receive suggestions, comments and ideas on how the Special Revenue Sharing funds might be effectively expended to benefit the citizens of the Town.

In addition to the hearings, a Citizens Advisory Committee on Special Revenue Sharing was appointed to provide a continued citizens review and involvement.

The present Special Revenue Sharing program requires that the Town develop a three year plan with information as to how the funds will be used. The Department of Housing and Urban Development has announced that the Town will receive \$169,000.00 in 1975, \$338,000.00 in 1976 and \$507,000.00 in 1977 for an estimate total amount of \$1,014,000.00 over a three year period.

Our application for funds will be submitted to H.U.D. in January of 1976. We anticipate that it will meet with their approval.

Early in the year, the Director of Planning and Community Development resigned and the town conducted a nation wide search to fill the vacancy. Although it was the responsibility of the Town Manager to appoint the new Director, the Board established a three member committee to assist the Town Manager in the selection process. The Committee consisted of a member of the Redevelopment Board, Finance Committee and Board of Selectmen. The Board viewed the matter of finding the right individual for this particular position as one of the most important items to be resolved in regard to the future direction of development in the town. Mr. Rugg represented the Board on the Committee.

After a lengthy search and interview process, Mr. Alan McClennen, Jr. was selected and appointed to fill the vacancy. At the request of the Board Mr. McClennen attends semimonthly meetings of the Board of Selectmen wherein he has kept us informed on all important matters relating to redevelopment. In the short period of time that he has been in the town's employ, he has been exceptionally busy with rezoning studies and the Red-Line Rapid Transit Planning process, in addition to numerous routine matters.

We are very optimistic in regard to the future development of the town as a result of the professional expertise that has been demonstrated by Mr. McClennen to date.

We also wish to comment on the activity of the Redevelopment Board. This five member Board has experienced a great increase in their work load because of the zoning rewrite now in process and the Mill Brook Valley study which is in its completion stage. We feel we are very fortunate to have such a concerned and dedicated group of individuals serving the town.

The Board spent considerable time developing policies and procedures of the Board of Selectmen. Many of the previous formal and informal procedures of the Board that by tradition were a matter of practice were reviewed and documented.

License fees were also reviewed and adjusted. The license fees were increased to more accurately reflect the actual costs to the town for the inspection services required. The Board thinks these costs are properly borne by the licensee rather than the residential property owner.

As a result of discussion to establish long range policy goals for the town, the Board contacted Dr. Lawrence Susskind of the Department of Urban Studies and Planning at M.I.T. for assistance. Subsequently the Board invited him to initiate a broad base citizen planning committee to identify areas for policy development.

Dr. Susskind agreed to implement this unique community based planning process in the town through a town wide survey to every household. The results translated into long range policy goals will aid in future growth and development of the town. We anticipate that this study and survey process will be completed in fiscal 1976.

At the Annual Town Meeting held in March, the Town Meeting members voted to authorize a new classification and pay plan study. Mr. Walsh represented the Board on this committee.

During the year several meetings of the committee were held. The consultant on the study presented a final report in November and the recommendations will be considered at the 1975 Annual Town Meeting.

The County Budget for the first time in many years came under the review of a County Budget Advisory Board made up of representatives of the local municipalities here in Middlesex County. This Budget Advisory Committee was established by an Act of the Legislature and became effective July 1, 1974. Mr. McCabe represented the Board on this committee and was a key indi-

vidual in getting the committee organized. The Board has very high expectations that this committee will become an effective force in controlling county costs.

In an effort to establish some financial goals for "Fiscal '76" the Board initiated a conference with the School Committee, Board of Assessors and Finance Committee. The result was general agreement for zero growth budgeting for the next fiscal year. In this regard, budgets for General Administration and the Schools were held to the bottom line of this current year. The Board is particularly appreciative for the cooperation received from the School Committee in this matter.

In addition to the many policy matters considered and acted on by the Board we also performed our duties and responsibilities as a Board of Survey and a Board of Public Works during this past year.

We are most appreciative of the many citizens of the town who have served in an advisory capacity to the

Board during this past year. Their assistance has been of great value in helping us make more informed decisions.

The Town Manager is to be commended for his continued initiative in matters relating to improving productivity and providing the taxpayers with the best possible town services at reasonable costs.

We wish to thank the many Department Heads and all the Town Employees who provide our municipal services in many instances twenty-four hours a day, three hundred and sixty-five days a year. We wish to acknowledge with appreciation the work performed by our Executive Secretary and the office staff.

Harry P. McCabe
Margaret H. Spengler
George K. Rugg
Arthur D. Saul, Jr.
Robert B. Walsh

Town Manager

DONALD R. MARQUIS
Town Manager

It is again a privilege to report on the activities of the departments under the jurisdiction of the town manager for the year ending December 31, 1974. We urge you and the citizens of Arlington to take this opportunity to peruse this annual report and review in detail the functions and duties of our town government. It is the intent, in this report, to bring to your attention some of the most important developments in the past year. For detail information regarding all departmental activities, we refer you to the respective reports.

The year 1974 was one of accomplishment and change for Arlington. Throughout the year work progressed on renovations at both junior high schools. Junior High East and Ottoson Junior High are scheduled to reopen in January 1975, and thus normal sessions will resume at the secondary level.

Progress on the high school expansion continued with town meeting action to take four houses and the gas storage holder adjacent to the high school. The houses

and tank will be removed at a later date to provide additional land for the project. Negotiations with the owners of land along Mill Brook Drive began, and if they are successful the conservation commission's plan to keep the brook open through much of the high school site could be realized. At the close of the year working drawings were complete and bids were scheduled for January 1975.

With Governor Sargent's decision to extend the MBTA Red Line through Arlington, the town prepared for several years of intensive planning activity. The extension of the Red Line will have a tremendous impact upon the town, and it is imperative that action be taken now to assure that the effect is beneficial.

Year one of the six year recreational facilities improvement program saw major community resource improvements at the Summer Street and Crosby playgrounds, and in local facilities at Pierce, Hardy, Locke, and Parmenter schools. An immediate response was observed as utilization increased significantly at all the areas. New tennis

courts, innovative play apparatus, and a landscaped baseball field are just a few of the improvements established.

The opening of the Park Circle water tower on Saturday and Sunday afternoons this fall was a pleasant occasion for the entire town. Some 3,200 citizens have visited the tower to enjoy the view of Boston's skyline to the east and the Berkshires to the west.

An event of historic significance was the dedication in October of Cooke's Hollow. With the enthusiastic support and hard work of the Arlington Garden Club, the department of properties and natural resources has helped develop the concept of a linear park to extend along Mill Brook. Cooke's Hollow, near Mystic Street, represents the first phase of this linear park.

In preparation for the installation of the Uncle Sam statue, a foundation was poured and a red brick walkway put in before the winter frost set in. The Bicentennial Committee continues to schedule meetings and develop plans for the celebration. Another project to commemorate our heritage gained support this year. The Arlington Lions Club will begin a campaign to raise funds to line both sides of Massachusetts Avenue from Lexington to Cambridge with American flags. These are to be displayed on holidays, beginning with the 19th of April parade.

The department of properties and natural resources continued its ongoing program of alarm system installation in public buildings. Fire detection devices, sensitive to smoke and heat, were installed in the Stratton School, all buildings of the high school, and in the Maple Street administration building. These systems are a big step in improving safety in our public buildings. The department plans to continue the program next year at the police station.

Departments under the town manager continued to project capital equipment needs and improvements on a six year basis. This program makes it possible to determine the equipment needs of the town and their relative importance. Capital spending can, therefore, be rationally planned and scheduled to avoid erratic changes in the tax rate.

On December 19, 1974, Chief of Police Ferdinand Lucarelli retired after forty-three years of faithful public service to the citizens of Arlington. In his last year he implemented the first phase of a new information system in cooperation with the MIT "Innovative Resource Planning in Urban Public Safety Systems." Also, for the first time

in the history of Arlington's police force, two special team projects were created — BRITE and BICEP — to handle youth disturbances and felony increases respectively.

As town manager, my concern is to develop a governmental structure that is responsive to the needs of the residents. I have found that municipal service can be improved by a coordination of departmental functions. As an example, the transfer of inspection services from the department of planning and community development to the fire department, which went into effect in January 1974, has proven to be a more efficient use of manpower. Along this same line, a department of community safety was formed, bringing together fire, police, inspection, and support services in a single department under one administrator. Arlington's new department, which is the first in the Commonwealth has as its primary charge the elimination of duplication in the delivery of direct and supportive services. Such areas as emergency medical services, youth matters, communication, vehicle maintenance, traffic, records, and signal systems will be analyzed to determine the most efficient methods of operation. Incoming firemen will be trained in housing inspection as well as firefighting.

During 1974 the department of planning and community development experienced a number of changes. In May, Mr. Alan McClellan, Jr. was hired as the director of the department. A redevelopment planner and a planner joined the staff in July, and two junior planners were later hired under a federal program.

The Planning Staff has worked closely with the redevelopment board on a comprehensive study of the Mill Brook Valley. In addition, the staff and board along with outside consultants, have worked on the development of the first new zoning by-law in Arlington in fifty years. It is anticipated that the new by-law will be presented to a special town meeting in May of 1975.

Chapter 1078 of the Acts of 1973, which mandated compulsory and binding arbitration of hours, wages, and fringe benefits for police and firemen, went into effect on July 1, 1974. The police patrolmen's betterment association, the police ranking officers' association, and local 1297 international association of firefighters subsequently entered into formal contract negotiations with the town. At the end of the year the town had renewed a three year contract with local 680 and entered into a new one year contract with the police patrolmen's betterment association. Disputes with the police ranking officers' association and with local 1297 appear to be headed towards compulsory and binding arbitration. This usurpa-

tion of town meeting's powers by the state which flies in the face of the home rule amendment to the Massachusetts Constitution, is but another example of the state's disregard for local government.

The annual town meeting appropriated \$35,000 to undertake a comprehensive review of the town's pay and classification plan and fringe benefit package. Non-professional employees of the school department were to be included in the study. A committee of fifteen was appointed to carry out the study, and voted unanimously to contract with T.J. Hourihan Associates from Needham, Massachusetts. The preliminary report was published in November, and the final report will be submitted to the 1975 town meeting.

As a result of town meeting's vote not to include the town yard site within the boundaries of the high school expansion, a study was made of the town yard to determine the cost of rehabilitating the buildings. There are structural deficiencies to be corrected as well as safety standards to be met.

One of the biggest concerns nationally and locally is the increasing rate of inflation. Some help for this problem was afforded by the federal government. Over \$800,000 in general revenue sharing funds were applied to the operating budget to offset the property tax. Although these funds do give some tax relief to the town, that relief mainly covers increases in prices and wages.

The passage of the housing and community development act of 1974 will bring federal funds to Arlington to assist in the implementation of our long-range housing and redevelopment objectives. Arlington worked hard to be included as an entitlement community, and with the assistance of Congressman O'Neill and Senator Brooke's office the legislation was amended to include Arlington. The town is now eligible to receive a formula-determined allocation of funds. Since the summer the selectmen and the manager have been preparing for the implementa-

tion of this program. During the fall a citizen's advisory committee of twenty-eight persons met to make recommendations on utilization of the funds. Three hearings were held to receive input from the public. An application for funding of the first year's program will be submitted to the department of housing and urban development in early 1975.

In December the town initiated an intensified recycling program. Known as project resource recovery, the program is representative of the current change in thought regarding solid waste. Although traditionally viewed as a nuisance, solid waste can easily be converted to an asset since it contains a large amount of recyclable materials. Resource recovery is an economically sound method to combat the problems of rising costs of municipal services and diminishing natural resources.

Along the same line of conserving resources, a new water rate has been implemented. The new flat rate was set in response to increased costs, especially the large increase in the MDC's water rates to the town. This new program promotes water conservation and at the same time attempts to provide for the needs of the citizens at a reasonable cost.

In concluding our report for 1974, we wish to thank the members of the board of selectmen for their continued assistance and guidance. The programs and projects in our 1975 budget can be realized only through the cooperation and coordinated efforts of many people, specifically, the selectmen, boards and commission, citizen advisory groups, town meeting members, town manager department heads, employees, and finally, the citizens. In the past, we have had a high degree of interest shown by these people which we hope will continue in the future.

Respectfully submitted,
Donald R. Marquis
Town Manager

GENERAL GOVERNMENT

MARY A. FARRINGTON
Town Clerk

The following annual report of the Town Clerk for the year ending December 31, 1974, is herewith submitted, in accordance with Section 3 of Article 3 of the Town's By-Laws.

The total amount collected by the department during the year and deposited with the Town Treasurer was \$25,442.51, a decrease of \$589.50 under the previous year. Included in the total amount was \$8,057.00 for conservation licenses and \$8,632.00 for dog licenses.

The breakdown of fees collected is as follows:

Marriage Intentions	\$ 2,233.20
Filing Fees (Financing Statements, etc.)	1,590.50
Miscellaneous Certificates	3,820.00
Pole Location Orders	92.50
Miscellaneous Licenses	155.50
Renewals of Gasoline Permits	238.50
Miscellaneous Books	617.01
Duplicate Dog Tags	6.30
Dog Licenses	8,632.00
Conservation Licenses	8,057.00
TOTAL	\$25,442.51

DOG LICENSES

1,318 Males	@ \$ 3.00	\$ 3,954.00
266 Females	@ \$ 6.00	1,596.00
1,018 Spayed Females	@ \$ 3.00	3,051.00
(1 free)		
4 Transfers	@ \$.25	1.00
3 Kennel	@ \$10.00	30.00
2,609 Licenses Issued		\$ 8,632.00
Paid to County Treasurer, Licenses		\$ 7,719.60
Paid to Town Treasurer, Fees		\$ 912.40

CONSERVATION LICENSES

540 Resident Citizen Fishing	@ \$ 8.25	\$ 4,455.00
184 Resident Citizen Hunting	@ \$ 8.25	1,518.00
118 Resident Citizen Sporting	@ \$13.50	1,593.00
36 Resident Citizen		
Minor Fishing	@ \$ 6.25	225.00
2 Resident Alien Fishing	@ \$11.25	22.50
3 Non-Resident Citizen/ Alien Fishing	@ \$14.25	42.75
3 Non-Resident Citizen/ Alien 7-Day Fishing	@ \$ 8.25	24.75
10 Duplicate Licenses	@ \$ 1.00	10.00
101 Resident Citizen Sporting	Free	
6 Resident Citizen Fishing, Paraplegic, Blind, Mentally Retarded	Free	
10 Archery Deer Stamps	@ \$ 5.10	51.00
92 Mass. Waterfowl Stamps	@ \$ 1.25	115.00
1,105 Licenses Issued		\$ 8,057.00
Includes 2 1975 Mass. Waterfowl Stamps issued in 1974.		
Paid to Division of Fisheries and Game, Licenses		
		\$ 7,811.50
Paid to Town Treasurer, Fees		245.50

Your attention is directed to the reports appearing on the pages that follow upon the vital statistics of the Town which are recorded at this time. It should be noted, however, that the summaries of births, marriages and deaths are incomplete, inasmuch as records thereof pertaining to Arlington residents are still being received by our office from other cities and towns.

Mary A. Farrington
Town Clerk

Registrar of Voters

REGISTRARS OF VOTERS

(l-r) — Harlan P. Smith, Alfred M. DeVito, Mary A. Farrington, Clerk, Joseph H. Cormier

The Registrars of Voters herewith submit their annual report for the year ending December 31, 1974, in accordance with Section 3 of Article 3 of the Town By-Laws.

Temporary Assistant Registrars designated by our Board made a complete canvass of the Town for the purpose of taking the annual listing of persons seventeen years of age and older residing in the Town of Arlington on January 1, 1974, and in conjunction therewith a listing of owners or keepers of dogs, both as required under the law.

Our Board certified the signatures of 19,737 voters appearing in nomination papers filed by or in behalf of candidates seeking municipal, county, and state offices, petitions for articles to be inserted in the Warrant for the Annual Town Meeting, initiative petitions and applications for absentee ballots.

Twenty-nine evening sessions for the registrations of voters were held during the year at various public buildings throughout the Town. At these sessions 1,120 persons were qualified to vote in primaries and elections. Throughout the year daily sessions for registration of voters were held during regular business hours in the office of the Town Clerk.

Upon completion of the work of revising the voting list in accordance with the true list information that had been presented, 4,210 notices were sent by first-class mail as required by law to persons whose names were to be removed from the voting list for the reason that they had not been reported as residing in Arlington on January 1, 1974. Those who proved residence were reinstated.

As a result of the notices mailed, names of voters who had moved out of Arlington were removed from the voting list. In addition, names were removed because of death, change of name by marriage or court decree, failure to comply with the notice and other changes of voting status.

The total number of registered voters upon completion of the revision of the voting list was 27,602.

After the State Primary on September 10, 1974, 2,538 cards were mailed to voters acknowledging their party enrolment status.

At the close of registration for the State Election, there was a total of 29,527 registered voters, including 16,564 enrolled Democrats and 4,206 enrolled Republicans with 8,757 unenrolled voters. Following is a breakdown by precincts.

Precinct	Total Number Voters	Total Democrats	Total Republicans	Total Unenrolled Voters
1	1,075	745	51	279
2	1,373	847	144	382
3	1,503	884	172	447
4	1,274	831	110	333
5	1,363	878	121	364
6	1,347	755	175	417
7	1,461	888	212	361
8	1,487	617	352	518
9	1,547	988	165	394
10	1,577	764	337	476
11	1,583	880	224	479
12	1,573	796	329	448
13	1,341	725	217	399
14	1,487	755	242	490
15	1,503	907	168	428
16	1,339	681	264	394
17	1,203	607	140	456
18	1,523	845	229	449
19	1,452	852	166	434
20	1,150	626	174	350
21	1,366	693	214	459
TOTAL	29,527	16,564	4,206	8,757

For the three elections held in 1974, the Registrars were in session throughout the entire period during which the polls were opened, after which they assisted in the tabulation of the returns of ballots cast at such elections as follows:

	Polls Open	Tabulation Completed
Town Election (March 2, 1974)	8 A.M. to 8 P.M.	1:00 A.M. March 3
State Primary (Sept. 10, 1974)	7 A.M. to 8 P.M.	3:00 A.M. September 11
State Election (Nov. 5, 1974)	7 A.M. to 8 P.M.	4:30 A.M. November 6

Mr. Joseph H. Cormier was reappointed as a Registrar of Voters for three years by the Board of Selectmen.

During the year the information contained in approximately 35,000 listing slips of residents of the Town on January first was transferred to their individual master cards, which provide for a complete official record of residence for all persons seventeen years of age or older from the time they first became residents of the Town of Arlington.

From the information, certificates of residence are issued daily to establish eligibility for attendance at State schools and colleges, receipt of old age assistance, veterans' services, social security, employment in state or federal civil service and for many other purposes.

Registered Voters' Certificates are also issued from our records for use as identification and proof of citizenship. Certificates of political party enrollments also were issued to candidates for office at the State Primary.

Respectfully submitted,
Joseph H. Cormier, Chairman
Alfred M. DeVito
Harlan P. Smith
Mary A. Farrington, Clerk

All used and unused ballots, tally sheets, total vote sheets, voting lists, and all other records pertaining to the Town Election, properly signed and sealed, were delivered to the Town Clerk to be preserved by her during the time required by law.

The persons declared elected Town Officers, including Town Meeting Members, were notified as required by the General Laws.

A true record.
ATTEST:

Mary A. Farrington
Town Clerk

All ballots, used and unused, tally sheets, total vote sheets, voting lists, and all other records pertaining to the State Primary, properly signed and sealed, were delivered to the Town Clerk to be preserved during the time required by law.

A true record.

ATTEST:

Mary A. Farrington
Town Clerk

ATTEST:

Mary A. Farrington
Town Clerk

Arlington, September 13, 1974

All ballots, used and unused, tally sheets, total vote sheets, voting lists, absent voters' applications and ballot envelopes and rejected ballots, and all other records pertaining to the State Election, properly signed and sealed, were delivered to the Town Clerk to be preserved during the time required by law.

A true record.

ATTEST:

Mary A. Farrington
Town Clerk

Arlington, November 11, 1974

Copies of the records of votes cast at the State Election held in Arlington on November 5, 1974, were this day certified by the Selectmen, attested and sealed by the Town Clerk in envelopes furnished for the purpose, and transmitted on November 12, 1974, to the Offices of the Secretary of the Commonwealth and County Commissioners for Middlesex County in accordance with the provisions of Section 112 of Chapter 54 of the General Laws.

ATTEST:

Mary A. Farrington
Town Clerk

Personnel Board

To the Citizens of Arlington:

The Personnel Board herewith submits its annual report for the year ending December 31, 1974.

The membership of the Board remained the same with the reappointments of Rudolph Kass and William F. Hayward. Stanford G. McEwen's term as an employee representative will expire on March 12, 1975 and Emelio J. Rosselli, an employee representative, was appointed to March 12, 1976. Charles J. Oppedisano's term will expire on March 12, 1976. The appointments of Rudolph Kass and William F. Hayward will expire on March 12, 1977. William F. Hayward was elected Chairman for the coming year.

The members of the Board were appointed to the Classification and Compensation Study Committee in accordance with Article 25 of the 1974 Warrant. In addition to the five regular meetings, the Board attended several Committee meetings. Any requests to the Board from employees or their representatives were referred to T. J. Hourihan Associates, the firm selected to perform the study. At the request of the Town Manager, the Personnel Director has attended the collective bargaining sessions with Local 680 AFSCME, Firefighters' Local 1297, Patrolmen's Betterment Association, and Police Ranking Officers' Association.

In addition to the meetings, we have had frequent contact with the Personnel Director on various personnel matters that have arisen between meetings. The Personnel Director has had numerous conferences with the Town Manager, department heads, employees and the Division of Civil Service on matters pertaining to Civil Service procedures, the operation of the Classification and Compensation Plans and the Leave Regulations. The following are some of the personnel procedures handled by the department this year:

Civil Service Requisitions	161
Emergency Appointments	74
Appointments, temporary, provisional and renewals	202
Permanent appointments	52
Promotions — permanent and temporary	31
Termination of temporary employment	253
Termination of permanent employment	51
Permanent and temporary transfers	5
Loyalty Oaths	81
Group Insurance	32
Civil Service Labor Applications	182

There are at present 592 full-time, 43 permanent part-time, 31 provisional and temporary full-time, 30 temporary part-time, and 40 seasonal part-time classified employees in the service of the Town. The peak employment period was during the summer months with a total of 773. These figures do not include personnel appointed by the School Committee.

The Board appreciates the cooperation and assistance given by the Board of Selectmen, Town Manager, Finance Committee, officials, boards, Town Counsel and employees in our effort to administer the duties and responsibilities involved. We also wish to express our sincere appreciation for the capable services of our Personnel Director, Lee Morris, who also serves as the Board's secretary and for the clerical work performed by Agnes G. Taylor.

Respectfully submitted,

Stanford G. McEwen
Charles J. Oppedisano
Emelio J. Rosselli
Rudolph Kass
William F. Hayward, Chairman

Town Counsel

I herewith submit my report for the year 1974 in accordance with Section 3 of Article 3 of the By-Laws of the Town of Arlington.

There have been thirty-one accident cases against the Town of Arlington this year. Three claims have been settled as authorized by the Town Manager and the Board of Selectmen. Two have brought suit and twenty-six are in abeyance. Of the previous years' claims and suits, twelve were abandoned without suit, nine were settled as authorized by the Town Manager and the Board of Selectmen and thirty-two are still pending. A verdict against the Town has been appealed and this appeal is pending.

Three petitions for land damages arising from the taking of land in the Mt. Gilboa area have been tried before a jury in the Superior Court. Two other suits for damages for eminent domain takings are pending in Court.

There are one hundred forty cases pending against the Appellate Tax Board petitioning for abatements on real estate taxes.

Over one hundred and eleven contracts were prepared or examined and approved together with bonds, corporate votes, and insurance certificates relating to them.

In the latter part of 1973 the Towns of Arlington, Belmont, Lexington, Wayland and Weston filed a petition for declaratory relief in the Middlesex Superior Court against the Massachusetts State Tax Commission et. al., contending that they were entitled to state regional school district aid under G.L. Ch. 71, Section 16D for the fiscal years 1972 and 1973-1974 because the contract for construction of the Minuteman Regional Vocational Technical School was awarded to the successful bidder on October 26, 1972. The Town of Arlington and the other towns above-mentioned are members of the Minuteman District. Prior to the award of the construction contract, Arlington and the other towns in the district, had hired a district superintendent, had authorized a bond issue for land acquisition, had hired an architect to prepare plans and specifications, and had approved a \$12,900,000 bond issue for the construction of the Minuteman School. The State Tax Commission denied that the petitioners were entitled to receive state aid under G.L. Ch. 71, Section 16D for 1972 and 1973 in view of the fact that the contract for construction of the school was awarded on October 26, 1972. The case was reserved and reported by the justice in the Superior Court on an agreed statement of facts. The Supreme Judicial Court in August, 1974 held that "the plaintiff towns were entitled to state aid pursuant to G.L. Ch. 71, Section 16D for the calendar year 1972 and the transitional fiscal year 1973-1974." The Town of Arlington is to receive a total of \$319,685.00 additional Ch. 71 monies for the years in question.

Upon the retirement of Chief Ferdinand A. Lucarelli in December, 1974, the Town Manager did not name a successor, but instead, implemented a total reorganization of the police, fire and inspection departments establishing in their place a Department of Community Safety headed by the former Fire Chief who was named Director of Community Safety with two Assistant Directors.

A Bill of Complaint was brought in the Superior Court by nineteen taxable inhabitants of the Town, who were members of the police department, seeking to enjoin the expenditure of any monies or the incurring of any obligation by the Town Manager for the establishment of the position of Director of Community Safety and the positions of the two Assistant Directors and seeking to enjoin the Town Manager from "interfering with the rules and regulations of the police department". The plaintiffs further alleged a violation of their rights under Civil Service.

The Town contended that Town Manager Marquis had acted completely within the powers vested in him under Section 15(b) of the Town Manager Act in reorganizing the aforesaid departments, that there was no improper expenditure of monies for the reorganization, that the Finance Committee had approved the transfer of appropriations for this purpose, that the civil service rights of the plaintiffs had not been violated, and that the Town Manager Act took precedence over the general statute dealing with the operation and supervision of the police department. The petition of the plaintiffs for a temporary restraining order was denied.

After a hearing and arguments upon the merits in the Superior Court, the Justice hearing the case upheld the position of the Town on all points outlined above and further stated that the Town Manager undertook the reorganization to promote the efficient, economical and prudent administration of the departments involved.

The Town Counsel has been available at regular and special meetings of the Board of Selectmen, has worked in close co-operation with the Town Manager, has rendered opinions as requested by the Town Manager, various Boards, Departments, Committees and Officers, has attended meetings at State Boards and Commissions, and has been vigilant in all matters affecting the interest of the Town.

For the kind consideration and co-operation extended to me by all the officials of the Town during the past year, and especially to the Board of Selectmen and Town Manager, I desire to record my sincere appreciation.

Very truly yours,
Joseph A. Purcell
Town Counsel

Purchasing Department

I herewith submit the report of the Assistant Purchasing Agent for the year ending December 31, 1974.

As in the past we are continuing to obtain competitive prices for materials and services without loss of quality or performance.

This year possibly one of the greatest increases in price was in the Bituminous Road Products. For example in 1973 our bid on Asphaltic Emulsions was .27 per gallon delivered and applied. In 1974 the bid was .445 per gallon delivered and applied, an increase of approximately 65%. On Class I Bituminous Concrete, delivered and installed on sidewalks the 1973 price was \$25.50 per ton and in 1974 the price was \$37.00 per ton, an increase of approximately 45%. On Class I Bituminous Concrete delivered and installed on roadway the 1973 price was \$11.55 per ton, and in 1974 the price was \$17.90 per ton, an increase of approximately 55%. On Bituminous Patching Material, the 1973 delivered price was \$8.90 per ton and in 1974 the delivered price was \$13.25 per ton, an increase of approximately 49%.

Regarding gasoline we started the year with Chevron Oil Co. as in 1973, but in accordance with Federal regulations had to go back to our 1972 supplier, Gulf Oil Company, who have been supplying the gasoline until November of 1974 then we had to go back to Chevron Oil Co. for the months of November and December of 1974. We will go back to Gulf Oil Company in January of 1975 and continue with them until further directives from the Energy Board. The price of the gasoline has varied throughout the year from .308 on regular to .4109, and Hi-test varied from .353 to .4479.

As reported in our last year's report we were paying .4042 for #2 fuel oil in December of 1973. This price has fluctuated downwards fortunately, and at the present time we are paying .3375. It has ranged from the high of .4042 in January and February to a low of .30 in April-July and then has gradually increased to .3375. However, as you can see this is a distinct drop over last year's prices.

We again participated in a co-operative bid on road salt with Belmont, Brookline, Watertown, Weston, Cambridge, Waltham and Newton as in the past years. The bid price this year was the same as last year.

During the year we had approximately one hundred sixty-five sealed bids for materials or services for the various Town Departments. Specifications and Proposal Forms were sent by circular letter to three or more bidders on items estimated to cost between \$400.00 and \$1,000.00. For items estimated to cost over \$1,000.00, bids were sought by public advertisement and circular letter. After carefully analyzing all bids, they are forwarded to the Town Manager for his approval and awards made to the lowest complying bidder. In many instances contracts were drawn, with the necessary bonds, insurance certificates, votes of corporation, etc. being furnished prior to being forwarded to the Town Counsel for his approval and thence forwarded to the Town Accountant.

Based on the uncertainty and complexities of the current economic climate the role of purchasing has become more important since the trend of a buyer's market has changed most drastically to that of a seller's market.

If we are going to receive a dollar's worth of products or services for each tax dollar expended, the purchasing function must be alert and cognizant of the changes "in the market-place."

I wish to take this opportunity to express my sincere appreciation to the Town Manager, Board of Selectmen, various Commissioners, Town Officials, Committees, Department Heads and my Staff for their cooperation throughout the year.

Respectfully submitted,

Warren E. O'Leary

Assistant Purchasing Agent

Housing Authority

HOUSING AUTHORITY

(l-r) — Joan C. Gross, John F. Cusack, Robert Hauser, Director, Joseph S. Vahey, John J. Hogan, Frederick J. Buckley, Jr.

The Arlington Housing Authority submits herewith its Annual Report for the year 1974.

At the Annual Town Election, Mr. John J. Hogan was re-elected for a term of five years on the Arlington Housing Authority. At its annual organizational meeting held in March of 1974 the members of the Authority elected Mr. Joseph S. Vahey, Chairman; Mr. Frederick R. Buckley, Jr., Vice-Chairman; Mr. John F. Cusack, Treasurer; Mr. John J. Hogan, Assistant Treasurer, all officers to serve for a period of one year.

The Authority has, through the year continued its operation of 176 Veterans apartments and 308 Elderly apartments in conventional public housing developments. The State Rental Assistance Program has been increased from an allotment of 60 units to 75 units during the year and we have continued the operation of 40 Leased Housing Units under the Federal Housing Law. Subsidies for conventional housing and rental assistance received from the State, enabling the Housing Authority to maintain rents suitable for persons of low income, amounted to \$543,000 and those subsidies received from the Federal Government amounted to over \$69,000. This brings a grand total of over \$612,000 in subsidies received in order to maintain low rental apartments.

With regard to the development of new elderly apartments recorded in our 1973 report, construction has started on 144 units of elderly apartments in the Drake Road section of the Town. The Contract for Financial Assistance with the Commonwealth has been increased to \$3,345,000 for this construction. In addition to development of elderly apartments, the Authority executed a Contract for Financial Assistance with the Commonwealth for \$300,000 for the development of low rent family units scattered throughout the Town. It is expected that the development of at least ten units for family housing will be completed by September, at which time the State has committed itself to expand the program for an additional ten units.

During the course of the year, the Housing Authority in cooperation with the Menotomy Manor Veterans Tenant Association and the Town Youth Consultation Center have secured a grant from the Office of Children for the establishment of a Community Advocate Worker to reside in Menotomy Manor. This Community Advocate Worker meets on a regular schedule with parents and teenagers who are residents of Menotomy Manor, in the Tenant Association offices, located at 2 Fremont Court. He also holds sessions at the Arlington Youth Consultation Center on Prescott Street. Since he lives in the

Menotomy Manor Development, this Community Advocate Worker is able to better understand the problems of these low income families. In addition to this work being done, the Housing Authority, again in cooperation with the Menotomy Manor Tenants Association and the Tenant Association from the three elderly developments, namely, Drake Village, Chestnut Manor, and Winslow Towers, and representatives from the Arlington Council on the Aging, and the Youth Consultation Center, are developing a Tenant Service Plan, funds for which development have been granted by the State. It is expected that this Tenant Services Plan will be completed early in 1975 and be implemented shortly thereafter.

During the course of the year Modernization Funding was increased by \$67,000, bringing the total Modernization Funding received since the inception of the program two years ago to \$345,000. These Modernization Funds have been and will be used for the rejuvenation of the older projects owned by the Authority.

Income limits established in the year 1973 remain unchanged and are on file for public examination, at the office of the Housing Authority.

During the year the Housing Authority made a payment in lieu of taxes to the Town in the amount of \$6,336, the maximum allowed under State regulations.

The Authority wishes to thank all Boards and Department heads of the Town for their excellent cooperation in various matters throughout the year.

Respectfully submitted,

Joseph S. Vahey, Chairman
Frederick R. Buckley, Jr.
John F. Cusack
John J. Hogan
Joan C. Gross

COMMUNITY SAFETY

Fire Department and Inspections

As Chief of the Arlington Fire Department I submit my sixth Annual Report for the year ending December 31, 1974.

The uniformed force consists of 121 men: The Chief of Department, 6 Deputy Chiefs, 9 Captains, 20 Lieutenants and 85 Firefighters. The Department has a Master Mechanic, Doward L. Barter; a Fire Apparatus Repairman Richard Lavalley; a Principal Clerk and Typist, Margaret Harrington and a Senior Clerk and Typist, Eileen Provenzano. Deputy Chief Charles F. Mahoney is in charge of personnel.

The Reverend Doctor Joseph R. Sweeney of the First Baptist Church of Arlington and the Reverend Henry M. Cunney of Saint Agnes Church continue as the Protestant and Catholic Chaplains, respectively.

The Fire, Police and Civil Defense Communications System is maintained by Nicholas J. Bucciero, Assistant Superintendent; Leo Canniff, Signal Maintainer and Dorothy Hannaford as Clerk and Typist.

The Inspection Division is composed of the Building Inspector, William A. Libby, Jr. and Assistant Building Inspector, Anthony F. Zagzoug; Plumbing Inspector, Donald P. Byrne; Inspector of Wires, Dennis J. O'Keeffe; Acting Housing Inspector, Michael J. O'Hara and a Senior Clerk and Typist, Marjorie Cabral.

SEPARATIONS

	Appointed	Retired
Firefighter Leonard E. LaRue	12-30-62	1-18-74
Lieutenant Paul F. Crowley	4-17-49	2-15-74
Captain David T. Hughes	5-3-42	9-30-74
Firefighter Gary Powers	4-7-74	6-7-74
(Provisional)		(resigned)
Leo B. Byrne, Housing Inspector	8-1-57	7-23-74

PROMOTIONS

John S. Fahey from Lieutenant to Captain on December 29, 1974 to replace David T. Hughes.

Robert J. Casey from Firefighter to Lieutenant on March 17, 1974 to replace Charles O. Toomey who retired December 15, 1973.

John J. Flynn from Firefighter to Lieutenant on March 17, 1974 to replace Paul F. Crowley.

John J. Valminuto from Firefighter to Lieutenant on December 29, 1974 to replace John S. Fahey.

Michael J. O'Hara from Acting Assistant Housing Inspector to Acting Housing Inspector on September 30, 1974 to replace Leo B. Byrne.

APPOINTMENTS

Robert L. Doyle appointed permanent Firefighter on April 7, 1974 to replace Daniel J. O'Brien who retired December 31, 1973.

Andrew J. Antonucci appointed permanent Firefighter from temporary Firefighter on April 7, 1974 to replace Leonard LaRue.

Paul F. Morrison appointed permanent Firefighter on April 7, 1974 to replace Robert J. Casey.

Paul M. Herald appointed permanent Firefighter on December 1, 1974 to replace John J. Flynn.

APPARATUS REPAIRS

Extensive repairs and body work were performed on Ladder 3 as a result of an accident on July 4, 1974.

A new motor and transmission were installed in Ladder 2.

NEW APPARATUS

The Annual Town Meeting of 1974 appropriated \$110,000 for the replacement of Ladder 2, a 1952 Seagrave 65-foot junior aerial ladder, with a 100-foot aerial ladder. The Maxim Company of Middleboro, Massachusetts was

awarded the contract to build the aerial ladder. The anticipated delivery date is some time in 1975.

REPAIRS TO FIRE STATIONS

A new emergency 45 kw generator was installed at Headquarters replacing a 15 kw generator. This will insure a supply of electricity for the operation of the Fire and Police Signal System and prevent any radio interruptions due to insufficient power.

The 15 kw generator at Headquarters was relocated and installed at Highland Station and changed to automatic switching. An addition to the station was constructed to house the generator.

The auxiliary standby generator at Park Circle Station was changed over to automatic switching.

TRAINING

The training program within the department progressed through the year under the supervision of Department Training Officer Captain James Kelly. We are continually updating our in-service training program in the area of fire fighting and fire prevention.

Presently a rotating program is under way in which our officers and men are receiving Emergency Medical training at Symmes Hospital. The Emergency Medical Services Act of 1973 requires that the operator and ambulance attendant complete a basic eighty-one (81) hour course in emergency care and transportation and successfully pass the National Registry Examination. The Emergency Medical Technician Course will provide a prime level of emergency transportation and care to sick and injured citizens of the community. During 1974 eight men successfully passed the course:

Captain Joseph Cronin	Firefighter Perry Cayton
Lieutenant Kenneth Felton	Firefighter James O'Rourke
Lieutenant Clifford Smith	Firefighter Emelio Rosselli
Lieutenant Robert Casey	Firefighter Joel Seully

At the present time four men are attending the course at Symmes Hospital.

Four Lieutenants, Louis J. Aurilio, Lewis J. Paragona, Clifford J. Smith and John G. Spadaro attended a four-day seminar at Harvard University conducted by the American Academy of Orthopaedic Surgeons on the emergency care and transportation of the sick and injured.

Three Firefighters, Andrew J. Anntonucci, Robert L. Doyle and Paul F. Morrison attended a six-week Recruit Training course at the Massachusetts State Firefighting Academy at Stow, Massachusetts.

The annual six-week fire pump training program was held at Spy Pond in the Spring. A six-week program on ladder evolutions was conducted at Highland Station. These were held under the direction of the Department Training Officer.

A number of men from this department are taking Fire Science courses at various State Community Colleges.

CIVIL DEFENSE

This Division continues to operate under Public Law 85-606. Arlington is certified by the State and Federal government as an eligible participant and the Town is reimbursed for one-half the cost of personal services for employees involved in Civil Defense.

The local government radio system is supervised and maintained by this division.

Deputy Chief Irving Proctor is the coordinator between the Fire Department and the Auxiliary Firefighters.

Captain Lawrence Flynn is the coordinator between the Police Department and Auxiliary Police officers.

Deputy Chief Warren R. French is the Civil Defense Director.

FIRE PREVENTION

The mercantile in-service inspection program that was instituted in 1972 is a continuing program. The principal value of these inspections is the knowledge obtained of the features of the buildings along with the corrections of existing unsatisfactory conditions. Diagrams and notes have been put on master file cards and this information is used for follow-up inspections and training.

Semi-annual inspections were made of all Town-owned buildings in conjunction with the insurance program by the Deputy Chiefs. Periodic inspections of places of business, public buildings, schools, hospital, convalescent homes and places of assembly were made.

Deputy Chief Warren R. French, Fire Prevention Officer, assisted by Inspector Philip Canniff inspected oil-burning equipment in addition to a survey of all flammable fluid tanks. Inspection of all restaurants was continued with upgrading of all cooking exhaust and fire protection sys-

tems. He, also, supervised the annual in-service hydrant testing programs.

FIRE FIGHTER OF THE YEAR AWARD

The Kiwanis Club of Arlington presented an annual award to the Rescue Ambulance Company for outstanding public service to their community during 1973. This award was given as a unit award and not on an individual basis because of the many men involved who performed this humane service in such a laudable manner. The following Officers and Firefighters responded to the greatest number of emergency runs for the year 1973.

Clyde Coscia, second right, accepts Kiwanis award to Fire Dept. from Ralph Nardella of Kiwanis. At left are chairman of the Board of Selectmen Harry McCabe and Fire Chief Robert Blomquist. Award was presented to the Rescue Squad.

Lieutenant Clyde Coscia
Lieutenant Clifford Fallis
Lieutenant Kenneth Felton
Lieutenant Thomas Turnbull
Firefighter Anthony Bonhomme
Firefighter Ulick Burke
Firefighter Robert Collins
Firefighter Robert Krepelka
Firefighter Wilfred Malvey
Firefighter Timothy Murphy
Firefighter Joel Seully
Firefighter Thomas Silva

INSPECTION DIVISION

On January 1, 1974 the inspection section of the Planning and Community Redevelopment Department came under the administration of the Department of Fire Protection and Inspections by the Directive of the Town Manager. This covers the four major areas of inspection work including the Building Inspector and Assistant, the Plumb-

ing Inspector, the Wire Inspector and the Housing Inspector and Assistant. The Building Inspector has been preparing for the implementation of the new State Building Code as authorized under the authority of Chapter 802 of the Acts of 1972 on January 1, 1975. This is an extensive change from all codes currently in effect.

The Inspector of Wires continues his inspection program of dwelling and commercial buildings in addition to coordinating the street lighting program for the Town. The program of relighting the major streets with modern mercury vapor lamps of a larger lumen capacity from the present incandescent type continued throughout the year.

The Plumbing Inspector has a continuous routine of inspection work for the Division.

There was a change of personnel within the housing inspection area this year and new personnel have been added. Two employees, Joseph W. Byrne and Steven O'Quinn, were obtained through Federal funds as assistant Housing Inspectors under the Emergency Employment Act. The systematic inspection program is intended to be implemented during January 1975.

The purpose of reorganizing all inspection programs within one department was to provide a better and well-coordinated inspection program from the inception of a building or structure at the blueprint stage and continuing throughout its entire useful life by a Fire Prevention program.

The Building Contractors Licensing Board comprised of Harold Knight, Marat Santini and Francis J. DeRoche, continued their testing of contractors for various grades of building licenses throughout the year. This part of the program should enhance and insure the building of sound structures within our community. The three gentlemen on this Board have given many hours of volunteer services throughout the year and deserve the appreciation of all members of our community.

RECOMMENDATIONS

The total number of responses has risen again this year from 2,838 in 1973 to a total of 3,601 in 1974. There is no reason not to believe that this area of productivity within the Fire Service Division will continue to climb. This report of necessity must again continue to recommend adequate training grounds with drill tower along with an Officers College in order to maintain the high degree of efficiency within the department.

The problem of adequate facilities for the maintenance and signal divisions remains a critical one. They both have long since outgrown their original designated areas.

It is recommended that the Town remain active in the birth and implementation of ideas set forth by the Metropolitan Area Planning Council in the areas of fire protection and communication.

CONCLUSION

To the Members of the Board of Selectmen, to other Town Officials and Departments I express my deepest appreciation for their sincere interest and cooperation.

To my own officers and men for faithful and devoted performance of duty and to the members of the Auxiliary Fire Department for stand-by duty, my sincere gratitude.

I wish to publicly thank Town Manager Donald R. Marquis for having expressed confidence in me by my appointment to the newly created position of Director of Community Safety on December 19, 1974 of the new Department of Community Safety. I am fully aware of the challenging responsibility which this position involves and am honored and humbled that I should be placed in this position of great trust and responsibility.

The decision to combine the administration of Fire and Police, along with the Inspection programs, is a response to the demands of the time. The complexity of living in the world today requires a greater degree of coordination in the area of public safety to provide for the services upon which the citizens of Arlington depend.

The merging of the positions of Chief of Fire and Police in no way diminishes the importance or effectiveness of either department. Having served for over 26 years in the Fire Department and six of these as Fire Chief, I feel I am sensitive to the safety needs of Arlington. During these years the Fire and Police Departments have worked in close cooperation with one another; although assuming responsibility for the administration of the Police Department will require extensive preparation on my part, I anticipate no major difficulty.

Chief Fred Lucarelli's efficiency and integrity have earned him and his department the respect and appreciation of the people of Arlington. During this transitional period I intend to maintain the high standards set by Chief Lucarelli.

I am extremely grateful for the assistance and support which the Police Department has given me over the years and am confident of their continued cooperation.

I pledge to use all the energies and capabilities at my command to insure the protection and physical well-being of the people of Arlington

Respectfully submitted,

Robert C. Blomquist

Director of Community Safety

Department of Police

FERDINAND A. LUCARELLI
Chief of Police

PUBLIC SERVICE

The Police Department is a service-oriented organization with the duty of keeping the people of Arlington secure in their persons, houses, papers and effects against criminality.

The Police Department's professional service relies on continuous education, training, public awareness and cooperation and the ability to keep abreast with the ever-growing changes in society.

HOME PROTECTION SERVICE

As a part of our patrol service, we provide a type of preventive patrol in which we conduct home protection by frequent checking of all homes where the owners are away and have notified the department to that effect. Under the Operation Identification Program, the department provides kits to the people of Arlington so that property may be numbered and entered into our files to provide for easy identification of lost or stolen goods. Crime prevention is an important element of our department.

JUVENILE DIVISION

The officers of the Juvenile Division investigate, evaluate and process complaints and offenses in which juveniles are involved. The important aspects of this department include the investigation of domestic problems wherein child-neglect situations occur and the referral of various juvenile problems to different social agencies which concern themselves with these matters. The officers of the depart-

ment are dedicated to the prevention and containment of juvenile problems.

DETECTIVE DIVISION

The detective division is responsible for conducting investigations which are initiated by the patrol element and are of an extended nature. They handle crimes of a serious nature and maintain up-to-date records of all known offenders and furnish such data to the patrol division. They also coordinate police activities with other police agencies and the courts.

The detective division was responsible for the inception of a new program referred to as Bicep (Break Incident of Crime Edge Protection) on September 1, 1974. This program collects criminal intelligence for the prevention of major crimes and the apprehension of those persons involved in such crimes. Bicep has achieved a level of proven success and will add greatly to the department's service to the community.

The detective division is actively involved in the enforcement of State and Federal Narcotic Drug Laws. Through a combination of aggressive enforcement and public education, the department seeks to prevent and deter the use and possession of such drugs and to deter crimes related to such substances.

RECORD BUREAU

Records are maintained by the department in compliance with statutes as a public service, as an investigative and administrative aid and to provide statistical data.

Department records are confidential except to other police departments or other qualified agencies. The department will provide, for a fee, crime and traffic-accident reports and photographs to crime victims and parties involved in traffic accidents. During 1974, the sum of \$6,012.78 was forwarded to the Town Treasury for services supplied by the Record Bureau.

The Record Bureau maintains records of the existing laws, criminal records, hackney carriage licenses, bicycle registrations, operation identifications, accident investigations and special details for safety and convenience. The bureau also has a memory bank for police purposes in which information is stored and retrieved.

This year we are putting in a new filing system with the help of the Massachusetts Police Institute, which will upgrade the system and give us a higher degree of accuracy.

TRAFFIC ENFORCEMENT AND MAINTENANCE DIVISION

This bureau has been responsible for making traffic studies, preparing traffic counts to provide smooth and safe flow of traffic and conducting radar patrol in order to lower the number of automobile accidents. Through enforcing compliance with traffic laws and in developing driver awareness of the causes of traffic accidents, the best possible results are achieved.

Traffic accidents are investigated to protect the rights of the individual parties, to care for the injured, to determine the cause of the accident so that methods of prevention may be developed and to gather necessary evidence to prosecute the violator.

Three civilians are assigned to the department to handle the maintenance of pavement markings, meter posts, signs, traffic-signal lights and other related matters.

TRAFFIC ENFORCEMENT

	Accidents	Citations	Parking
1973	1,069	4,774	13,254
1974	1,123	4,593	18,646

Traffic enforcement is conducted within high-accident locations, during peak-traffic hours, in citizen-complaint areas and through random patrol. This selective type of enforcement best insures a maximum effort to cut down on the number of accidents. At the present time, the department is considering measures to be taken in light of expected traffic flow and activities arising from the upcoming Bicentennial celebration.

SAFETY OFFICER

This department is responsible for working with the community, and in particular the school department, setting up and promoting all facets of safety for school children. This department employs 24 women crossing guards and has approximately 300 school-patrol leaders to insure pedestrian safety. Lectures, films, brochures and exhibits are given in all elementary schools, junior highs and the high school as well as to various civic, social and business groups.

Information is exchanged and gathered for the betterment of the program through the Massachusetts Safety Officer's League of which Lieutenant Arthur Guarente is a member and past president.

PARTICIPATION IN LAW-ENFORCEMENT COURSES

At the present time, 15 men have qualified for their Associate's Degree, 1 for a Bachelor's Degree, and a total of 59 officers are attending college in law-enforcement-related subjects at Northeastern University and several community colleges.

A list of participants in various law-enforcement-related programs is as follows:

Captain Bradley and Lieutenant Doherty attended a seminar on records sponsored by the FBI.

Captain Flynn and Lieutenant Connors attended a seminar on management sponsored by the FBI.

Captain O'Leary attended the FBI Academy.

Lieutenant Guarente attended a traffic seminar.

Captain Bradley attended the Cambridge Police Academy for a week-long seminar on kidnap hostages conducted by the FBI.

Lieutenant Cook and Sergeant Buckley attended a two-week course on crime-scene search conducted by the State Police.

Sergeants Learnard and Cameron attended a course in advanced training in firearms.

Lieutenants Doherty and Carroll attended the Command Training Institute at Babson College.

Detective Arthur McLean attended a two-week course in narcotics sponsored by the Attorney General's Office.

Police Community Relations Officer Robert White attended a one-month course on Crime Prevention at the University of Kentucky sponsored by LEAA.

Detective William Shea attended a seminar conducted by the Massachusetts Narcotics Association.

Detectives Shea and Schiavo and Com. Rel. Officer Robert White attended a seminar at the Somerville District Court for a screening program for drug-related criminals.

Sergeant Buckley attended a seminar on the subject of family stress and juvenile problems conducted by the Mystic Valley Mental Health Center.

The department realizes the importance of participation in such programs and their benefits; and we believe that we can and have developed new insights in the field of Law Enforcement.

IN-SERVICE TRAINING PROGRAM

The department views officer-on-the-job training as an important asset in providing the community with the services it may require. In order to keep up with the needs of a changing community, the department must be exposed to new areas and new developments in already-established areas. On-the-job training adds to the degree of professionalism of the department while realizing community needs and is under the supervision of Captain Henry Bradley and staff.

Classes were given to all members of the department. Subjects discussed at the 1974 In-Service Training Program classes were as follows:

Advanced Cardiac Pulmonary Resuscitation — Guest Speaker was Firefighter John Quinlan of the Lexington Fire Department.

Methods of Transporting Victims — Guest Speakers were Dr. Charrette and Dr. Hewitt, internists from Arlington.

Search and Seizure Law and the Controlled-Substance Act — Guest Speaker was Bruce Twyon, Assistant Attorney General of the Commonwealth.

Crowd Control — Guest speaker was James F. Link, FBI Special Agent.

Civil Liabilities as Related to Police Work — Guest Speaker was Richard W. Krant, FBI Special Agent.

Court Demeanor, Testifying and Procedures — Guest Speaker was Albert Burns, First Assistant Clerk of the Third District Court, Cambridge.

Films on the various subjects were also shown.

All officers were required to read various materials of the Professional Standards Division of the International Association of Chiefs of Police, ranging from evidence, child abuse, auto theft, health aid, interviewing of rape victims to a variety of other relevant materials relating to law enforcement and community service. As a result of in-service training meetings, a rape-investigation guideline was established by the department to coincide with requirements of new rape law, Chapter 41, Section 97 B, C and D.

POLICE-INTERNSHIP PROGRAM

The police-internship program has provided the department with various services while providing its student participants a degree of exposure and experience to the system of Law Enforcement. The department has utilized the services of four College students with the cooperation of Suffolk University and Northeastern University, (John Galvin, Barry Pollack, Robert Monterise and Dennis Buckley).

The college students are involved in such tasks as planning, clerical work and assistance to the operations and management of the department. (The department desires continued involvement in this type of program in the hope of involving the community and interested students' valuable field experience while furthering the effectiveness of the department and the community's responsiveness towards it.)

The police-internship program was conducted under the supervision of Captain Henry Bradley, Lieutenant Arthur Guarente, Community Relations Officer Robert White, Assistant Safety Officer Joseph Steele and Senior Clerk Grace Shwab. High-school students were given lectures and allowed to observe various procedures in the area of motor-vehicle law, radar and Breathalyzer testing, firearms, search and seizure and drug laws, MDC canine demonstration, indoctrination to the department and observance of court procedure. Four high-school students also assisted in the Records Department on a part-time basis.

COMMUNITY RELATIONS

This unit was formed within the department as a result of the Westinghouse Justice Institute Report. It has been functioning for 15 months with the hopes of opening up communications and establishing a continuing liaison between the police department and the citizenry.

To date, the unit has been involved in a wide range of activities with the following departments and businesses within the community:

Youth Consultation Center
Youth Service Board
Welfare Department
Arlington Jaycees and Jaycee-ettes
League of Women Voters
Tenants' Council — Menotomy Veterans' Project
Park and Recreation Department and Park Commissioners
Arlington Advocate
Arlington Citizen
New England Telephone and Telegraph
Boston Gas Company
Minuteman Council of Boy Scouts
Northeastern University Co-op Program
Suffolk University Co-op Program
Boston Globe
Christian Science Monitor
Channel 4 TV Station — Public Affairs Section
Channel 5 TV Station — Public Affairs Section

One major field concentrated on by this unit is In-Service Training of Police Officers in Crises Intervention from which "Operation Brite" (Breakthrough Rendered by Integration Team Establishment) was established. The Brite Team, a special team of three officers — Robert Hughes, Thomas Heller and Bruce Price, was established to cut down on the number of youth-related calls by meeting with youth and adults to discuss problems and to handle specific calls. The Brite Team suspended operations on November 17, 1974, with the intent of re-evaluating the concept to formulate guidelines for renewed operations in the spring.

This department has also been involved with a Satellite Program at the Boys' Club, Step Program (Step Towards Employment Practices) at the Baptist Church and individual classes within the High School relative to the Criminal Justice System.

COMMENDATIONS FOR THE YEAR 1974

The following officers were cited for exceptional arrests and duty and were commended by Chief Ferdinand A. Lucarelli:

Sergeant Eugene V. DelGaizo
Sergeant Joseph A. Roper
Officer Lawrence L. Dennen
Officer Francis C. Bourgeois
Officer William Nuttall
Officer Thomas E. Cullen
Officer Richard Femia
Officer Robert Hughes
Officer Arthur W. McLean
Officer James J. Mangiacotti

Officer Robert J. Collins
Officer David R. McNamee
Officer Bruce E. Price
Officer Thomas B. Heller
Officer James F. Allen

The Arlington Kiwanis Club presented Lieutenant Harry R. Ryerson with an award for meritorious service for the year 1973. (Man of the Year Award).

Retired Chief Ferdinand A. Lucarelli received the J. Edgar Hoover Award in recognition of outstanding performance and professionalization of Law Enforcement.

Officers pensioned were: Chief F.A. Lucarelli, Amelio Cappella, John McNally and Sam Femia.

The dedication of the members of the department in the performance of their duties is in a large part contingent upon citizens assistance to the department by the reporting of any crime the citizenry may observe being committed. Immediate reporting of any activity is important to insure proper effectiveness of the department. Citizens are asked to go to the nearest telephone and dial 643-1212 or ask the operator to call the police for you. The police will need the exact location where they are needed. One need not be offended if he is questioned by a police officer as to his identity and business in the area, as it is the officer's assignment and routine duty to question you under certain circumstances. An officer's job requires that he risk his life, if necessary, to protect you. Citizen assistance and cooperation is a necessary element which will assure the department's function in providing services for you.

CONCLUSION

Although my signature may appear at the close of this annual report, credit for the record achieved by the Arlington Police Department belongs to Retired Chief of Police Ferdinand A. Lucarelli.

I am sure that he would express his appreciation to the Town Manager, the Honorable Board of Selectmen and all other department heads and agencies for their cooperation and support during the past year, and particularly to the officers and members of the Police Department with whom he shared so many years of dedicated service.

Respectfully submitted,
Robert C. Blomquist
Director of Community Safety

Dog Officer

I herewith submit my report as Dog Officer for the Town of Arlington, for the year ending December 31, 1974.

At this time, I wish to express my thanks to the Town Manager and the Board of Selectmen for the advice and assistance given to me in the settlement of controversies arising between the dog owners and complainants.

I would also like to take this opportunity to thank Police Chief Lucarelli, his department and the office of the Town Clerk, also the Department of Public Works for the splendid cooperation given me through the past year.

In conclusion, I gratefully acknowledge the prompt attention given by the dog owners of Arlington to the licensing of their dogs this year, also abiding by the Leash Law.

Respectfully submitted,

David C. Hill

Dog Officer

ENGINEERING

In addition to the usual Department work, which is listed below, all claims against the Town for damages or injuries alleged to have been caused by defects were investigated and recommendations made. During the past year under the supervision of the former Town Engineer, Mr. Robert L. Higgins, a Town-wide study was compiled to determine volumes delivered by the present water system. Due to flooding in certain areas caused by a severe summer storm in August, it was recommended that the Public Works Department clean trunk line storm drains in three locations. This work was supervised and examined by engineering. Surveys and estimates were made to evaluate land costs for court settlement on properties taken for conservation purposes.

The Engineering Department continues to serve in its advisory capacity providing technical assistance to citizens, Boards, Commissions and other Town Departments.

The following is a list of some of the work done by the Department during 1974:

Building applications and site plans processed, house numbers assigned and grades checked.	23
Inspection work by licensed contractors	37
Inspection of trench resurfacing by utility companies	94
Locate Town utilities for and perform continuous inspection of New England Telephone Company conduit installations on Mass. Ave., Pleasant Street and Broadway	
Estimates, supervision and inspection of street reconstruction and resurfacing	5
Design, layout and supervision of 1974 street acceptance and construction	1

Taking plans for storm drain, sewer, water, school and street	11
Construction lines and grades given for walk and edgestone, installations	122
Survey, levels, estimated costs for 1974 street acceptance and construction	1
Preliminary surveys, estimated costs, park improvements, walk and degstone extensions and various warrant articles, etc.	154
Miscellaneous surveys for street line requests, tree locations, playground court layouts, etc.	18
Sewer, water and storm drain extensions	14
Surveys and pans or inspection of proposed traffic signal installations	3
Final assessments and plans for street betterment, sewer, water, walk and edgestone	11
Block plan and sewer plan additions and corrections	83
Design and plans of cemetery plots	783
Layout of cemetery plots	366

Due to the resignation of Mr. Robert L. Higgins this Department is again without the services of a permanent Town Engineer.

In substituting for him as Acting Town Engineer I wish to extend both his and my appreciation to fellow employees, Town Officials and various Departments for their cooperation and assistance during the past year.

Very truly yours,

Joseph J. Sullivan

Acting Town Engineer

Collector of Taxes and Town Collector

Board of Assessors

BOARD OF ASSESSORS

(l-r) — John B. Byrne, Abner P. Wyman, Assistant Assessor, William O. Hauser, Jr.

The Board of Assessors held their regular weekly meetings at 7:00 P.M. on Monday evenings. Special meetings were called by the Chairman and field inspections were scheduled during afternoons.

Mr. Daniel A. Purcell was elected for a 3 year term at the Annual Town Election on March 2, 1974.

At the annual organizational meeting the Board members, Mr. John B. Byrne, Jr., Mr. William O. Hauser, Jr. and Mr. Daniel A. Purcell unanimously elected Mr. John B. Byrne, Jr. as Chairman and Mr. Daniel A. Purcell as Clerk for the ensuing year.

In January the Assessors made inspections throughout the Town and assessed personal property at \$11,924,100. Real Estate valuation was increased \$4,164,850. making a total of \$345,925,600. This amount of new value was due to several large buildings that had been incomplete on January 1, 1973. Due to the moratorium on new construction, an increase of this amount is very unlikely for the next 2 years.

The January 1, 1974 total valuation was utilized in setting a 6 month tax rate which completed the eighteen month transition from the calendar year to the new fiscal year. This same valuation was used in setting the new fiscal 1975 tax rate effective July 1, 1974 for the 12 month period ending June 30, 1975, resulting in a \$67.20 tax rate, an increase of 18 per cent.

Due to this transition to the fiscal period the Assessors office had to process exemptions and abatement applications for the 1974 spring tax bills, then again in the fall of the year, and will have another processing in the spring of 1975. The Motor Excise tax bills issued by the Registry of Motor Vehicles are still 25-30% in error, causing additional work. The office staff of Gladys S. MacPhail, Mary A. Glover, Anna C. Fox and Norma M. Sabol are to be complimented on their cooperation and efficient handling during this difficult year.

Miss Gladys S. MacPhail retired on July 1, 1974 having been associated with the Assessors office since April 1956. Her contribution to this department will be well remem-

bered. A testimonial dinner was held in her honor by the Board of Assessors and the office staff.

The Board of Assessors and their Assistant Assessor attended seminars and courses given by the Dept. of Taxation, Assoc. of Mass. Assessors and the Middlesex County Assessors Assoc. Mr. John B. Byrne, Jr. and Mr. Abner P. Wyman completed the requirements and earned the Designation of "Certified Massachusetts Assessor," receiving citations from the Legislature and the Association of Massachusetts Assessors.

The Building Inspector issued the following permits during 1974 and these properties were inspected by the Assess-

ors. Valuation and record changes were made for the 1975 fiscal year tax levy:

1 Family Dwellings	11	Roofing & Siding	108
2 Family Dwellings	5	Swimming Pools	26
Commercial Buildings	1	Signs	47
Additions & Alterations	143	Demolish Buildings	22
Elderly Housing	1	Miscellaneous	2

Respectfully submitted,

John B. Byrne, Jr., CMA, Chairman

William O. Hauser, Jr.

Daniel A. Purcell, Clerk

Abner P. Wyman, CMA, Asst. Assessor

Town Accountant

CARMEN T. FORITANO
Town Accountant

I herewith submit my report of the financial transactions of the Town of Arlington for the year ending June 30, 1974, as shown in the following schedules:

Balance Sheet; Deferred Accounts, Debt Accounts, Trust and Investment Funds; Unencumbered Balances, Appropriation Accounts; Appropriations and Expenditures; and Receipts and Payments.

Respectfully submitted,

Carmen T. Foritano

Town Accountant

HUMAN RESOURCES

Human service programs should be designed to meet the needs of local citizens and should be shaped and controlled by those citizens. To this end, two new committees have been formed this year, The Consumer's Advisory Committee and the Human Resources Advisory Council. They, together with the Park and Recreation Commission, The Council on Aging, and the Boards of Youth Services and Health provide grass roots input into the policies and goals of The Department of Human Resources.

In the coming year they will be addressing the many problems which confront our community, alcohol and

drug abuse, vandalism, health needs, employment, financial crisis and the myriad human problems associated with our complex and changing times.

A recent study at the University of Michigan delineated the history of the United States into three eras. The Agricultural Era ending in the mid 1800's; the Manufacturing Era ending in the 1950's and the Human Resources Era just now beginning. If this is true, Arlington is well prepared to begin this "Era" with the organization necessary to fulfill its great potential.

Recreation

The motto of mind, body and spirit can be truly adapted to the Recreation Division of the Human Resources Department, Town of Arlington. This past year marked a positive step towards the ultimate goal of "Something for Everyone." It is the challenge of recreation to offer as many diversified programs to all ages. The product is fun, relaxation and gratitude by the participants; whether they be pre-schoolers, exceptional children or senior citizens. The satisfaction of watching elementary school girls and boys playing organized softball and football, gives way to the smiles of senior citizens engaged in worthwhile programs. This is what recreation is in the Town of Arlington. A Recreation Department that has no facilities of its own; a Recreation Department that sometimes must beg, borrow or steal an adequate facility; but something tells us that it is all worthwhile. Something tells the Town it is a necessity when over 500 people cram four local gyms on Friday nights for Family Fun Night or when hundreds of teenager's enjoy themselves on Saturday afternoons at Teenage Activities. This all leads up to a department that offers over sixty varied and interesting programs.

January of 1974 — found at one point — over 2,500 Arlington residents involved at least once a week in recreation programs, sponsored by the Recreation Division of Human Resources. Girl's After-School Activities was switched from Saturday mornings to week-day afternoons and now is held at all eleven public elementary schools to the delight of over 250 girls each week. Cre-

ative Drama, Baton Twirling, Magic Instruction, Fashion Modeling, High School Basketball, Gymnastics and Elementary School Basketball attracts over 750 youngsters; while the Comprehensive Skating Program continues to involve many children for weekly instruction. Gymnastics and Elementary School Basketball are co-sponsored by the School Department.

Adults enjoy Tennis, Golf, Skating Instruction, Ballroom and Square Dancing, Mens and Womens Fitness and Chess while Senior Citizens have the Golden Age Club which meets bi-monthly and the Senior and Retired Citizens weekly meetings at the Fox Library.

Two new and highly successful programs were the Family Fun Night and Saturday afternoon Teenage Program. The two programs were basically designed to encourage family activity and something for teenagers to do during the winter months. Gymnasiums and qualified leadership produced free play programs for many families and teens.

In the spring another new program, Elementary Girls Softball, was added and over 300 girls participated in the first season. The Recreation Division has once again teamed up with the School Department in this program which will provide softball for girls in grades 5 and 6. This program coupled with the ever popular Junior High School Girls Softball League, which has enjoyed much success, gives girls in the community an opportunity to join in organized softball during the spring.

something for everyone

The summer of 1974 was our most successful in many years. Over 6,000 Reservoir Beach tags were sold; approximately 2,500 children of all ages participated at the playgrounds daily. Gymnastics, Soccer and Drama were added to the growing list of summer activities. The Mens and Womens Softball Leagues were a success as well as the High School Basketball Program. The Retarded Childrens Program as well as the new Physically Handicapped Program achieved great strides. From the Reservoir Beach, to the local parks, to the softball leagues, to the summer concerts; all were to be enjoyed in an eventful summer.

The fall of 1974 found our usual amount of recreational programs along with new innovative ideas such as: Girls Elementary Soccer, which was co-sponsored by the School Department; Pre-School Skating Instruction; Pre-School Movement Classes; Square Dancing for adults and a Luncheon Skating session at the M.D.C. Rink.

The Recreation Division is continually striving to better the community and offer diversified activities during leisure times. The division is an agency for the people, an agency that offers varied activities from games and sports to dance and drama; an agency that involves programs of learning, competitiveness, companionship and just plain old fun.

Times of stress are upon us in today's society but enjoyment can be found right in your own back yard. As 1974 comes to a close the New Year brings about a sense of excitement for the Recreation Division, an opportunity to expand our ideas and up-grade existing activities.

Needless to say, all cannot be done alone without the support of volunteers, part-time workers as well as the cooperation of the Director of Human Resources, Town Manager, Board of Selectmen, Park and Recreation Commission and the many Town officials and department heads.

Board of Health

The Board of Health at its organizational meeting unanimously re-elected John M. Peters Chairman for the current year serving with Robert J. Carey, M.D. and Alan J. Wright, D.M.D.

The Board of Health regretfully accepted the request for retirement from John J. Murphy, D.V.M., who was appointed to the position of Inspector of Animals for the Town of Arlington on October 27, 1947. Dr. Murphy's retirement is to be effective December 31, 1974.

Diseases declared dangerous to the public health and which were reportable to the Board of Health for the year 1974 are as follows: animal bites 114, chicken pox 62, dysentery 1, german measles 5, gonorrhea 33, hepatitis 7, measles 1, meningitis 1, mumps 22, salmonellosis 11, scarlet fever 34 (including strep throat), syphilis 2, tuberculosis (all forms) 4 and whooping cough 1.

As you will note above, the statistics show that Arlington had only one case of measles reported during 1974. We attribute this to the endeavors of local physicians who continue to inoculate with measles vaccine and to the Measles Vaccination Program conducted by the Board of Health.

Again this year many services were offered to the residents of Arlington including "Flu" Shots for Senior

Citizens and Town Employees. The Glaucoma Screening Program and Hearing Screening Program were most successful. The Lead Poison Screening Program conducted by mothers at the Menotomy Manor Housing Project was also a success. The Pre-School Vision Program was another success.

As of this writing a free Diabetic Screening Program has been planned for Arlington and Lexington residents on April 30 and May 1, 1975.

All of the above services require much input and cooperation by the dedicated people who are involved in the planning and implementation of each program.

We would be remiss if we did not recognize the following: The Council of Aging, Arlington Visiting Nursing Association, Symmes Hospital, the Arlington Zonta Club, the Arlington Lions Club, the Rotary Club of Arlington, Massachusetts Society for the Blind, Boston Guild for the Hard of Hearing, and our own Public Health Nurse. We are grateful to these people for their numerous contributions and endless effort for the improvement of better health in our community.

The Board of Health wishes to express its appreciation for the cooperation and dedication of its own office staff.

Inspector of Animals

1. There were 122 reports of persons bitten by animals in Arlington during 1974. These animals were quarantined for a period of ten days as required by law.
2. There were no cases of rabies in Arlington this year.

Respectfully submitted,
John J. Murphy, Jr., D.V.M.

Park and Recreation Commission

The expanded Park and Recreation Commission elected Kevin P. Feeley, Chairman and Bernice K. Jones, Vice-Chairman at its meeting of January 17, 1974.

Others members of the Commission are: Charles T. King, John A. Johnston and James W. Fowler, III. Daniel F. Brosnan, Jr., Superintendent of Recreation, met with the Commission throughout the year *ex officio* and served as its secretary.

Major topics of concern and action for the Commission during 1974 were the following:

- A successful effort to gain Town Meeting approval for Article #74 authorizing purchase of the property at Pond Lane for park and recreation use.
- Advice and support to the Recreation Facilities Committee.
- Consultation with citizen groups about, and implementation of changes in regulations of some park areas.
- Investigation of possible land acquisitions to enlarge Arlington's park areas.
- Regular review of recreation programs and of the work of the Recreation Division of Human Resources.
- Work on measures to try to alter patterns of youth vandalism and abuse of parks, playgrounds and other public property.

- Work with Spy Pond Committee and the Recreation Facilities Committee on revised regulations governing boating on Spy Pond.
- Initiation of several new recreation programs, especially increased utilization of school buildings for recreational purposes.

The Commission plans in 1975 to study carefully the problem of extensive vandalism in Arlington. We will work with Mr. Brosnan and other community recreation groups and community agencies to evaluate our Town-wide recreation opportunities for young people. We will propose programs of both prevention and intervention in an effort to improve the present situation.

In closing, the Commission wants to express our pleasure at the appointment of Daniel F. Brosnan, Jr., as Superintendent of Recreation. Reviewing the work of his division each month, we are in a unique position to appreciate the unusual competence and tireless effort of the Superintendent, and to observe his deep commitment to the well-being of the children, youth and adults of the Town of Arlington.

We are saddened by the heart attack of our member, Charles T. King, on Christmas Day, 1974. We acknowledge with gratitude his long years of service as a member and as Chairman of this Commission and we pray for his speedy and full recovery.

Consumer Protection

SEALER OF WEIGHTS AND MEASURES

Much progress was made by the Consumer Protection Division in 1974. The Arlington Consumer's Advisory Committee was formed in March and determined its purpose as threefold: analysis, advise, and advocacy. Using this definition, the Committee has sought out and studied all matters affecting consumer interests in Arlington. Among the earlier areas which the Committee has researched are: landlord/tenant problems, Town licensing, recording and disposition of consumer complaints (over 800 in 1974), legal service needs, and other problems. The first program undertaken by the Committee was a Lawyer's Referral Service, the early results of which have been encouraging. In coming years, the Committee, through citizen input, intends to develop and implement new programs aimed at satisfying society's needs.

In other areas, the Consumer Protection Division was designated as the Home Heating Coordinator; it was

made the Relocation Office for the Town, and generally made itself available to assist the public in all crises. Late in 1974 the Consumer Protection Division, through a Manpower program, hired an Attorney at Law. The Attorney's main function has been to advise lower income citizens and senior citizens of their legal rights. This is just another example of the expanding services offered by the Consumer Protection Department.

All the weighing and measuring devices were again tested by the Sealer of Weights and Measures. The importance of this job is overlooked by most people, but if the job were not done correctly the public might very well not receive fair value for their purchase price. As packaging methods change, it will be even more important for the Sealer of Weights and Measures to be knowledgeable in this area.

Manpower Development

Manpower moved into a different phase in 1974, with President Nixon signing a new legislation in December 1973, The Comprehensive Employment & Training Act (CETA) became the first example of Federal Special Revenue Sharing. It allowed for comprehensive manpower programs to be developed at the local level utilizing a great variety of tools. For the first time employment services and job development could be practiced at the local level and the potential operating agencies had to compete for the available monies. The result was predictable: the programs were more attuned to local needs and the operating agencies worked more efficiently than before.

For the first half of 1974 categorical manpower programs continued to operate in the form of Neighborhood Youth Corp In School, In School Vocational Exploration, and Out of School programs; Operation Mainstream; and MDTA on the job training and individual referral. In June the Department of Labor (DOL) awarded the first grant to Arlington under CETA in the form of a Summer Youth Employment Program for \$57,758 or some 98 summer jobs for youth. A second grant of \$2,584 for recreational equipment and programs for economically disadvantaged youths was also awarded in June.

Simultaneously, planning and program management was taking place preparatory to a Title I grant of \$208,114 being awarded for a comprehensive manpower program in Arlington. By mid-August DOL gave a go ahead for

the program, and by mid-September all staff was on board. Title I functions being funded in Arlington included, but were not limited to: employment services, job development, work experience, skill training, educational services, on the job training, and supportive services. After extensive training of staff, the program started in mid-October and shortly thereafter occupied their new home at 683 Mass. Avenue, The Arlington Employment Resource Center.

With the demise of a President opposed to public service employment (PSE) as a manpower tool, and the growing unemployment rate, a PSE grant under Title II of CETA was released in mid-October, this was some \$30,000 of FY 74 monies which was to pay salaries of four participants who were to work in Arlington. At the same time an Emergency Employment Act grant for PSE of \$37,584 was released to hire 7 individuals. By December with the passage of a new Title VI under CETA funded for PSE, and release of \$100,960 of FY 75 Title II funds, it became apparent that 1975 was going to become the Year of Public Service Employment if Congress were to have its way.

Although expanded services and monies were the theme of 1974, a growing and persistent unemployment rate was causing hardship and anxiety among Arlington's labor force. This office will look forward to and work for a decline in this threat, and will be pleased when manpower services are no longer needed here.

Veterans' Services

In spite of rising costs and recession in the economy, through the spirited efforts of the staff of the Veterans' Service division, the total cost to the Town for Aid and Assistance has been considerably reduced by helping recipients into the newly legislated Supplemental Security Income Program.

In addition to the standard duties of aiding disadvantaged veterans and acting as an ombudsman on all veterans' problems, this office has also assumed a leadership role in coordinating the various veterans' groups in the management of the Memorial Day and Veterans' Day Parades.

Youth Services

The Arlington Youth Consultation Center has had an active and challenging year in 1974, responding to concerns and cares of Arlington people. We have continued to serve Arlington citizens through counseling, consultation, educational and advocacy programs. Throughout 1974, 616 people have made use of our services, 355 of whom were young people and 261 of whom were parents. Many of these people have come to the Center for more than one kind of service. Three hundred fifty-six people came to A.Y.C.C. for individual counseling, three hundred came for group counseling and 170 for family

counseling. The group program at A.Y.C.C. includes parent couple groups, mothers' groups, adolescent activity groups, adolescent talk groups, crisis team meeting, consultation groups, and workshops.

A.Y.C.C. has continued to coordinate its program with other agencies dealing with Arlington Youth and their parents. We have solid working relationships with Arlington schools, the Police Department, the Welfare Office, Cambridge and Concord courts and probation departments, Menotomy Manor Tenants' Council, the Arlington

ARLINGTON YOUTH CONSULTATION CENTER

(Back Row l-r) — Irwin Avery, M.D., Rick Dow, Janet Urman, Robert Daniels, Larry O'Lasky, Alan Ornstein, Richard Casey. (Second Row l-r) Robert Cohen, Patricia Erickson, Barbara Blum, Jean Barnes, Barbara Tosti, Leon Cantor. (Front Row l-r) — Elise Gideonse, Patsy Kramer, Dir., Virginia Thayer.

Housing Authority and Mystic Valley Mental Health Center. In particular we've continued very close coordination with STEP — Arlington High School's Alternative School Program. Our staff lead "Human Growth and Development" groups with the STEP students, providing them through these groups with the opportunity to explore their concerns about social and personal issues. This provides them with the chance to explore their environment through activities and new experiences and gives them the opportunity to take a look at their own growth and development within a group setting. We feel again this year that STEP is a very exciting program with which to be associated.

In 1974, our hot line program underwent a major change in format. We decided to cut back from a 24 hour program to a daytime and evening program. Through careful inventory of our hot line log sheets, we learned that Arlington residents tended to use this program during office hours and evening hours. Our overnite hot line calls were coming from Boston, Brockton, etc. Consequently, we've arranged to cover emergency calls from Arlington clients through Symmes Hospital and we run the hot line program 9:00 A.M. to 10:00 P.M., Monday through Thursday and 9:00 A.M. to 5:00 P.M. Friday.

Another component of our program that has been changed is our residential program, Robbins Cottage. As of December 31, 1974, we are no longer operating Robbins Cottage. This ends a three year history of Robbins Cottage as a Town supported half way house. Robbins

Cottage functioned as a "cooling off" place for five boys in its first four months of operation and for twenty-two young women over the remaining two and three-quarter years.

All of the girls coming to Robbins Cottage came with their own unique problems and they were able to use the flexibility of Robbins Cottage in their own ways to work on their problems. They were offered there a calm, warm alternative and a chance to reestablish meaningful communications and relationships with their families.

Some girls have left Robbins Cottage to live independently, while others have gone on to long term placements at other residential programs. However, the majority of girls have been reunited with their families and they have been in better positions to deal constructively with their lives and their life problems.

In closing, we'd like to make some observations on the "drug scene" as we perceive it over the past years. The use of drugs has changed in Arlington since 1970; however, it would be unwise to say that drug abuse is no longer a problem for young people in Arlington. Both young people and adults are better educated now to the truths and dangers of drugs; and consequently, drugs are used with more sophistication and even caution.

Drugs continue to be very available to Arlington young people who use them both to "party" and/or to avoid

dealing with their life problems. Unfortunately the drug most available to young people in Arlington is alcohol, and we at A.Y.C.C. see a severely increasing rate of juvenile alcoholism.

Indeed a very sizable number of people we see are seriously affected by alcoholism in their family situations. We would even speculate that the problem of vandalism in

Arlington is directly related to the growing alcohol problem among young people and among adults.

We're very concerned with all these social problems facing the people of Arlington and we will continue our efforts, through counseling services, consultation services, educational services, and advocacy programs, to help young people and their parents deal with these problems in as constructive a manner as possible.

Council on Aging

Entertainment Scene from the Council on Aging Christmas Party

The Council on Aging takes pride in submitting its Eighth Annual Report to the citizens of Arlington. 1974 has been a year of change, growth and accomplishment for the Council. We hope this report serves to highlight what we feel has been an exciting and productive year.

ORGANIZATIONAL

The Council on Aging continues with the same seven members it had in 1973. All of the Council's directors are appointed for three year terms and serve without compensation. In May 1974, Mrs. Carolyn E. Crosby and Miss Dorothea E. Nicoll were reappointed for three year terms. The Council has had an active year fulfilling its requirements of policy making, advocacy and public relations. Members have taken an active role in many community projects relating to the elderly of Arlington.

A number of the Council members have been appointed to prominent local and state committees in recognition of their excellent service to elders. Mr. Richard Lutus has been elected a Director of the Area 3 Agency on Aging, a regional Federal agency which has the responsibility of planning and funding programs for services in the Metropolitan Boston Area. Mrs. Mary Stephens has been serving as the Council's representative to the Citizen's Advisory Committee and has been active in examining the usage of special revenue sharing funds. Mrs. Carolyn

E. Crosby was appointed in September to the Advisory Committee of the Massachusetts Department of Elder Affairs. This appointment by Former Secretary Jack Leff was in recognition of the efforts Arlington has taken to be a leader in senior citizen programming. In addition, Mrs. Crosby has been serving as the Council's representative to the Human Resources Advisory Committee. Miss Dorothea E. Nicoll was appointed during 1974 to the Statewide Advisory Committee on Comprehensive Health Planning. This appointment, too, was made upon the recommendation of the Department of Elder Affairs.

There has been a number of staff changes at the Council on Aging during the past year. Joseph F. Sheehan left the position of Executive Secretary of the Council in March to assume an administrative position with the State Office of Elder Affairs. In April, W. Scott Plumb was hired as Executive Secretary. Mr. Plumb holds a Masters Degree in Social Work from the Boston University School of Social Work. Prior to joining the Council, Mr. Plumb served as Assistant Director of the Eastern Middlesex County Retired Senior Volunteer Program.

In April, Mrs. Louise Duggan, R.N., M.S. Health Nurse for the Elderly resigned. She was replaced in July by Mrs. Barbara Dalis, R.N. Mrs. Dalis holds a Master of Science Degree in Community Health Nursing from Boston University. Mrs. Dalis's services are contracted through the

Arlington Visiting Nurse Association with the Director of the V.N.A. providing supervision.

Mrs. Beverly Kerivan, Secretary/Bookkeeper to the Council, also left for a new position. She was replaced in June by Mrs. Maureen McCall.

Our other staff members have continued to provide quality services to the Council's senior clients. Mrs. Marguerite Coffey, Senior Service Corps, and Mrs. Diane Tainter, Outreach Worker, have provided sensitive and dedicated help to seniors.

We have also been fortunate in having the services of various young people through the Neighborhood Youth Corps. Their work has been valuable in the program's operation.

Finally, at the close of 1974, a new staff member was added to the Council. Mrs. Mary Adrienne Beck was hired through the Federal C.E.T.A. Program as Special Projects Assistant.

In summary, 1974 has been a year of changes for the Council on Aging and its staff. Despite occasional discontinuities, services have continued at a high level of quality and effectiveness.

PROGRAM ACTIVITIES

The Arlington Council on Aging, established in 1967, exists to serve all senior residents of Arlington. Its objectives are to initiate and develop programs that enhance the retirement years of its clients. The Council's overall philosophy is that retirement should be a period of growth and accomplishment.

The main program operated by the Council is Project Create. Project Create is jointly funded by the State Office of Elder Affairs through Title III of the Older Americans Act and by the Town of Arlington. During 1974, Project Create was refunded on a 50-50 cost sharing basis for a 3rd year to February 28, 1975. The total budget for Project Create in its third year was \$56,493 with the Town financing one half of the total cost.

Project Create provides a three-pronged program for the elderly in Arlington. The program components are health counseling, information and referral, and recreational and social activities. 1974 was the most productive year yet for the Council and its clients. 2,387 different elders received services during the year in one or more of the three components. Those services were available to all elders regardless of personal circumstances.

During 1974, existing programs were improved and expanded and several new services were developed. We will discuss those changes by component.

The main objectives of the **Health Component** are to improve and maintain health, to prevent illness, and to foster and encourage independent living. Those objectives are met through activities such as individual and group health counseling, health education lectures, blood pressure screening, home evaluations, and annual mass screening programs. The health counseling and blood-pressure screening activities occur at various sites in Arlington. At two of these sites, a pilot project was begun in August using a second nurse to assist the Health Nurse. This has allowed time for more in-depth counseling and follow-up. Since that time, these clinics have run more efficiently and have led to better health assessments and referrals. Mass screening clinics held in 1974 with the cooperation of the Board of Health, the Visiting Nurse Association, Symmes Hospital and others include glaucoma, hearing, various cancer screening clinics and a flu vaccination clinic. The Health Nurse has also been co-leading a feelings-sharing group for senior citizens with a psychiatric nurse from Mystic Valley Mental Health Center. The group provides an opportunity for seniors to discuss and share ideas, concerns and feelings about growing old. In an effort to increase community awareness of the normal aging process and special needs of elders, the Health Nurse has provided continuing education to the Arlington and Lexington Visiting Nurse Associations and the North Metropolitan Homemaker Service.

At the heart of the Council's program is its **Recreation and Social Component**. 1974 saw over 1,100 different seniors come to the Drop-in-Center, (Jarvis House) or other locations throughout Town to participate in Council sponsored social activities. A program committee, composed entirely of senior citizen volunteers, was established and given responsibility for planning and hosting all recreational programs outside of the Drop-in-Center. This committee worked diligently on the Senior Citizen Picnic in August, Halloween and Christmas Parties later in the year, and many other recreational programs. This committee was the expression of the Council's belief that seniors should plan, develop and control their own programs. Examples of Council sponsored social programs in 1974 include adult education classes such as lip reading and painting, trips to the Burlington Mall and many other locations through the help of the School Department, crafts and card classes at the Jarvis House, and movies, parties and discussion groups at other locations in Town. In the spring, through the cooperation of the Board of Selectmen and the Stop and Shop Co. on Massachusetts Avenue, a free shopping service for the elderly

was instituted every Tuesday morning. The monthly Council on Aging Calendar of Events was expanded during 1974 to become a Newsletter in addition to an activity guide. Close to 2,000 copies a month were prepared and distributed to seniors throughout Arlington noting the activities scheduled during the month and containing information about programs, legislation and other developments in the field of elder affairs.

The Information and Referral Component serviced more seniors during 1974 than in the previous six years combined. Over 1,000 different elders received counseling, information services, or were referred to appropriate sources. The Council continued to counsel through its Outreach Program and dealt with questions covering a wide range of issues including social security, health insurance, homemaker and chore services, financial counseling on Food Stamps, Tax Abatement, Income Tax Returns, Taxi Coupon Discounts, Supplemental Security Income, and volunteer services. A number of new information and referral services were developed during 1974. Project S.S.I. Alert, supervised by Chester Zucker of the Council and assisted by the Social Security Administration, sent information to 5,700 senior households in Arlington trying to identify seniors eligible for Supplemental Security Income (S.S.I.). Over 475 elders were interviewed by volunteers. Of those, 263 were found initially eligible for S.S.I. The Council on Aging was presented with a citation for its outstanding service for S.S.I. Alert. In the spring of 1974, through the cooperation of the Board of Selectmen and various taxi companies in Arlington, a Taxi Discount Program was initiated. The program provided a 30 cent discount from the metered fare for senior passengers who received coupons which were redeemable at the Jarvis House. During 1974, over 160 seniors redeemed their coupons for a net savings of close to \$900.00. Other new information and referral services were made available using existing agencies to provide counseling assistance. The Arlington Welfare Office conducted eligibility interviews for Food Stamps at the Jarvis House during September and October. In conjunction with this, the Council prepared and distributed over 6,000 brochures describing the Food Stamp Program to senior households. Later in the year, through an arrangement with the Social Security Administration in Cambridge, a counselor was provided to counsel elders in the areas of social security and medicare. Starting in January, a lawyer hired through the C.E.T.A. program, will be advising seniors at the Drop-in-Center in various areas of law such as property sales, wills and testaments, and the like. In the fall of 1974, a Friendly Visitor Program was initiated by the Council. Ten volunteer senior visitors were recruited, trained and placed in visiting relationships with other seniors. The purpose of the program was to provide com-

panionship and a listening ear to elders in the community who find themselves shut-in or isolated from community services. The Council also developed and issued Emergency Medical Identification Cards for its clients. At the close of the year, 250 seniors had applied for the cards. Finally, 69 volunteers served the Council on Aging in 1974, and donated a total of 2,520 hours of service. To put this in more understandable terms, volunteers contributed the equivalent of well over one full-time staff position for the entire year.

OTHER ACTIVITIES

In addition to those activities mentioned, the Council on Aging and its staff were actively involved in many other areas including:

- the drafting of proposals in the areas of hot lunches, health services, bicentennial celebrations, employment and manpower training.
- active public relations work with many local and regional organizations.
- the provision of technical assistance to various agencies for projects of interest to elders including the Symmes Hospital Telecare Program, the Housing Authority's Tenants Coordinating Committee, the Department of Elder Affairs Budget Hearings and Reorganization Plans, the Mystic Valley Home Care Study Group, the Retired Senior Volunteer Program Advisory Committee, the Internal Revenue Service and its Tax Aide Program.
- encouraging cooperative service ventures such as the tax abatement program with the Board of Assessors, the Senior Picnic with the Recreation Department, the tax aide program with the American Association of Retired Persons and many others.

ACKNOWLEDGEMENTS

An organization such as the Council on Aging, which services so many clients and is dependent to a great degree on the cooperation of other organizations, has many people and groups to thank. At the risk of omitting generous donors or aides, we would like to give our special thanks to the following:

To the Town Manager, Donald R. Marquis, the Board of Selectmen, the Finance Committee, and the Town Meeting Members, without whose continued support the Council on Aging would not have been able to deliver quality services to Arlington's elders.

To Arthur Johnson, Director of Human Resources, who has given the Council and its staff expert advice and guidance in its programming and day-to-day operations.

To the senior citizen groups in Arlington who have been invaluable in publicizing the activities and services of the Council on Aging, the Golden Age Club, the American Association of Retired Persons, the National Association of Retired Federal Employees, Senior Housing Organizations and many others.

To many other organizations and agencies who have co-operated with the Council in sponsoring joint programs on behalf of the elders of Arlington. They are too numerous to list, but nonetheless merit our grateful appreciation.

Respectfully submitted,

COUNCIL ON AGING

Carolyn E. Crosby, Chairman
 Nancy G. Higgins
 Richard A. Lutus
 Harry P. McCabe
 Dorothea E. Nicoll
 Mary L. Stephens
 Chester G.A. Zucker

STATISTICAL REPORT — 1974

During 1974, 2,387 different Arlington seniors received one or more services from the Council on Aging in health care, recreation or information and referral.

Service	No. Served	Service Units
Health Counseling & Education	826	2,125
Screening Clinics	606	684
Group Work	8	85
Information & Referral	1,008	2,151
Homemaker/Home Health Aide	67	84
Friendly Visitor Program	14	190
Recreation & Other Free Time		
Activities	1,101	7,401
Adult Education	121	309
Volunteer Training	36	78
Telephone Information Calls		2,963

LIBRARY

As of December 31, 1974, the Robbins Library had 37,314 registered borrowers. 4,114 of this number were registered during 1974, and included 274 Non-Residents.

The people of Arlington used their Library in 1974.

They borrowed:

344,539	Books
20,242	Phonorecords
692	16mm films
1,447	8mm films
564	Framed Pictures
673	Mounted Pictures
273	Other (Scores, etc.)

Total Circulation: 368,430

Plus

Recorded "in Library circulation" including books held on reserve for class projects, etc.:

24,741 Grand

393,171 Total Circulation

63,881 recorded Reference questions were answered.
4,421 Reserves were processed.

The Technical Services Department now located in the former Library Hall catalogued and processed 7,757 additions to the collection, and withdrew 5,634 volumes.

The Library system now has a book collection of 189,070 volumes.

306 Children's programs were presented including story hours, movies, and puppet shows. The Summer Reading Program attracted 622 children.

56 Film programs were shown for family groups, and enthusiastically received.

The 13 part "America" film series by Alistair Cooke was presented twice for adult audiences.

The National Library Week Program, presented by the Friends of the Robbins Library with George Plimpton as guest speaker attracted a large and enthusiastic audience in the Lowe Auditorium of the Arlington High School.

Other Library programs included service to Symmes Hospital, and to shut-ins.

The Robbins Library Concert Series sponsored 22 programs during the year. From January through June they were held at the Edith M. Fox Branch Library, and from October through December at the Robbins Memorial Town Hall.

PUBLIC WORKS

During the year 1974 despite inflationary pressures that were unequalled in severity since the Korean War, the department has emphasized maintaining expenditures at a minimum without sacrificing services. All available resources were utilized in our continued search for methods and techniques to improve departmental efficiency and to promote increased productivity. Our overall effort has been to provide the citizens of our community with the vital physical services which they require and which are essential to the day-to-day functions of the Town.

NEW RESURFACING PROCESS — MASS. AVE.

In the area of maintenance and improvement of asphalt pavements, the department employed a new process for removing of old pavement so that it can be recycled and used again. In conjunction with the resurfacing project on Massachusetts Avenue the department utilized a heater planing unit. A brief description follows:

This unit removes the top layer of asphalt pavement to a pre-determined depth, corrects drainage, restores curb exposure, and removes corrugations. All of the work is accomplished in one operation; heating, cutting and loading into dump trucks. Interruption of traffic is held to a minimum, as only one lane of traffic is disrupted at a time. An added feature or bonus is the reuse of the asphalt cutting. After completion of this process the road area is resurfaced.

Massachusetts Avenue from the Cambridge line to Teel Street and from Bates Road to Franklin Street (approximately 2,692 feet) was resurfaced using this process.

HIGHWAY ACTIVITIES

During the winter season, the program of keeping our streets passable and safe at all times was continued; this included snow plowing, snow removal, and the salting and sanding of our highways. Every effort has been expanded to make our Snow and Ice Program an efficient one. The residents of Arlington have been accustomed to and undoubtedly expect a good performance from the department in this area.

The street sweeping program was continued during the year. Clean streets in Arlington is a "Hallmark" of the Town and special attention is given to this program.

Street leaves that were collected this year were dumped in an area in the rear of Mt. Pleasant Cemetery and at an area at the Reservoir for the purpose of a leaf composting program. Implementing an ecologically sound practice such as leaf composting strengthens the Town's involvement in community recycling and its resourcefulness in solid waste management. The Town will realize a savings in disposal costs as a result of this program.

During the year we responded to flooding conditions in various areas of the Town due to heavy rainfall. We have experienced many difficulties in flooding during torrential rains particularly between Everett Street and Heath Road.

The storm drain in Broadway was installed prior to 1899 and at that time most of the adjoining land was farms. We are recommending that the present main on Broadway in that area be replaced with larger capacity mains in Fiscal 1976.

Grove Street Place (490') was constructed by the department this year.

Falmouth Road (950'), Upland Road (525') and Langley Road (584') were reconstructed this year.

During the year the program for maintaining of existing public sidewalks was undertaken, in addition new concrete and bituminous concrete sidewalks and drives and new curbstones were installed in various locations throughout the Town.

In addition to our usual and regular public works activities we performed services to all other Town departments when called upon.

SEWERAGE SYSTEM

Our entire sewerage system was maintained and in many sections the mains were flushed and cleaned. The sewer-

WILLIAM CROWLEY
Public Works Department

age main system is now over 116 miles in length and includes twelve electrically operated pump chambers with warning systems. We also serviced those particular sewer service connections which became clogged. This is one of the outstanding services which we provide to those in distress no matter what time of the day or night. It is obviously appreciated by those who have had to call upon us.

This year the renovation of the entire sanitary sewer system in Arlmont Village was completed in order to conform to an order from the Commonwealth of Massachusetts Department of Public Works. Approximately 1,206' of sewer mains were relayed and all particular sewer connections were renewed where necessary.

WATER SYSTEM

Our water main system is now over 128 miles long and must of necessity be kept operating at full efficiency. During the year we eliminated several dead ends by main extensions. This has increased the functioning pressure and aided in providing clearer water to residents in such areas.

We are strongly recommending this year that the "Volumes and Pressures" program be reinstituted. The department should promote periodic reevaluation of its water distribution system's efficiency in supplying full-capacity water for fire purposes and domestic purposes both now and for future years to come. This program will be a joint effort with the Fire Department. We are confident that the results of this reevaluation of our water system's capabilities and the corrective programs which will follow will be of great benefit to the Town.

PROJECT — RESOURCE RECOVERY

In the fall of this year the department initiated an intensified recycling program known as Project — Resource

HERBERT McLEOD
Public Works Department

Recovery. (Resource recovery is defined as the use of materials, energy, and products reclaimed from solid waste.)

The program has a threefold purpose: to protect the environment through recycling of secondary materials which produce less pollution than virgin materials, to minimize the depletion of our nation's resources, to reduce the cost of solid waste disposal.

Growing concern for the environment and rising cost of municipal services resulting from the inflationary spiral in our economy has changed our thinking about solid waste.

Although disguised as a nuisance, solid waste can be an environmental asset. It contains a wealth of recyclable materials — paper, cardboard, metals and glass — and offers the potential for conserving a seriously diminishing resource — fuel.

LOOKING AHEAD

Looking ahead to Fiscal 1976 relating our programs and budgets to current economic conditions, one can see that we have kept our overall requested appropriations to Fiscal 1975 levels.

We are confident that with increased community responsiveness and with the continued support and participation of all the citizens of the Town, despite the uncertainty of economic conditions, that we will be able to provide those municipal services in the year ahead that have made our Town a desirable community in which to live.

Respectfully submitted,

Raymond A. Ouellette
Director of Public Works Dept.

PLANNING and COMMUNITY DEVELOPMENT

Redevelopment Board

In 1974, during its third full year in existence, the Arlington Redevelopment Board worked very closely with the Department of Planning and Community Development to initiate the final phase of the Comprehensive Plan update. To achieve this end, it was necessary to completely rewrite the zoning bylaw which was originally written in 1924.

The completion of the master plan was made possible by the accumulation of various inventory studies such as housing, population, economics, and land use prepared in the early 1970's by the Department of Planning and Community Development and outside consultants. In addition, the two-year moratorium on apartment and industrial development, which ends in September 1975, has made it possible for the Board to look closely and carefully at the town with the result that all future development will be planned and guided by the town of Arlington and not by developers.

The Redevelopment Board recognizes the need for planning in the process of growth and expansion and has been reluctant to leave the future of Arlington's long-range planning to chance.

The Arlington Center — Mill Brook Valley Area, which received concentrated attention, extends west from the Center between Massachusetts Avenue and Summer Street to Arlington Heights. Recognizing that this area offered the greatest potential for future development in the town, the Redevelopment Board received town meeting approval and funds in the spring of 1974 to do a detailed land-use study of the area. The study, undertaken by the planning and architectural firm of Charles G. Hilgenhurst and Associates of Boston, will enable the Board and the Department of Planning and Community Development to present the innovative zoning needed in this area in order to stimulate sorely lacking business revitalization and expansion. The land-use plan for Arlington Center and the Mill Brook Valley includes economic and transportation alternatives for the area. The plan will be-

come part of the overall zoning package being prepared for the town by the planning and engineering firm of Metcalf & Eddy, Incorporated, of Boston, also funded by the 1974 Annual Town Meeting.

The complexities of presenting a new zoning bylaw and zoning map are enormous, and the Board and staff of the Department of Planning and Community Development have been meeting on a regular basis at least once a week since the end of the Annual Town Meeting in order to present the new zoning bylaw for adoption in 1975.

The work on the last leg of the master plan has afforded the Board the opportunity to work closely throughout the summer and fall with many town officials, boards, commissions, and citizens, so that the final result will reflect the ideas and concerns of many individuals and not just the Redevelopment Board. The advent of the **Planning and Zoning Newsletter** in September, which will be published on a regular basis by the Department of Planning and Community Development and the Redevelopment Board, is further evidence of the Board's intent to keep all officials and citizens informed throughout the entire planning process. The Newsletter will not stop with the adoption of the 1975 Master Plan and zoning bylaw but will continue to serve as an informational tool in the years to come as the Board and the Department begin to implement the recommendations contained in the Plan.

Finally, with regard to the completion of the Master Plan, the Redevelopment Board has been grateful for the cooperation it has received from various developers who have expressed an interest in Arlington but have elected not to proceed with their projects until the Comprehensive Plan has been completed and approved by Town Meeting.

Throughout 1974, the Redevelopment Board has kept in close touch with the proposed Red Line Extension from Harvard Square to Alewife and Route 128. The Board re-

REDEVELOPMENT BOARD

(l-r) — Joseph F. Tulimieri, Stephen Pekich, Robert J. Sheehan, Edward Tsoi

affirmed its position that the Red Line should go all the way to Route 128 and that it should run in an underground configuration through the town of Arlington. The Board believes that terminating the Red Line at Alewife will have an adverse effect on East Arlington neighborhoods and serious negative repercussions on Arlington Center and Arlington Heights in terms of traffic, development and confusion should the ultimate terminus be in either location. Since the Board and the Department firmly believe the proposed extension of the Red Line to Arlington will have a significant, positive impact on the town in terms of future development, they will continue to monitor its progress to insure that the ultimate disposition of this most important transportation facility will reflect and be reflected in Arlington's Master Plan.

The Redevelopment Board and staff of the Department of Planning and Community Development are continuing to analyze the Reed's Brook Project area under a \$75,000 Urban Renewal Grant funded by the Massachusetts Department of Community Affairs. From time to time, developers have expressed an interest in the land, but several factors including the instability of the subsoil, as well as adverse economic market considerations, have served as deterrents to any viable development project for the land. The Board and Planning staff will present recommendations for the highest and best use of this piece of land as part of the proposed new zoning bylaw.

During 1974, the Redevelopment Board and the Department of Planning and Community Development met regularly with the Board of Selectmen to keep them abreast of the Board's progress and participated in the discussions leading up to the preparation of the application for Special Revenue Sharing funds. In addition, the Board, through the Planning Director, took a more active role in all hearings before the Zoning Board of Appeals by submitting recommendations for or against each proposed zoning variance.

The Arlington Redevelopment Board would like to take this opportunity to express its sincere appreciation to the Town Manager and the Department of Planning and Community Development, and the many officials, boards and citizens for their assistance throughout the year.

Respectfully submitted,

Stephen Pekich, Chairman

Joseph F. Tulimieri, Vice Chairman

Robert J. Sheehan

DEPARTMENT OF PLANNING & COMMUNITY DEVELOPMENT
(l-r) — Gail Baron, Alan McClennen, Director, Christopher Nelson, Pamela Wakefield,
John Bordes

The Department of Planning and Community Development is pleased to submit its annual report for calendar year 1974. The year was a significant one in the brief history of the department since many of the diverse activities that had been undertaken after the formation of the department began to coalesce. Since its formation by the Town Manager in 1969, the department has been involved in extensive research and background studies leading up to the revision of the Comprehensive Plan of the town of Arlington. Concurrently, extensive background work has been undertaken by the department in preparation for the rewriting of the zoning bylaw of the town. The bylaw was originally adopted in 1924 and is in desperate need of revision.

The Annual Town Meeting of 1974 appropriated funds to permit the department to undertake the final land-use study necessary to prepare the Comprehensive Plan as well as the rewriting of the zoning bylaw. Due to the complexity of the zoning bylaw, outside consultants have been hired to assist the department in this extremely important task. The work has been conducted in two phases.

The Arlington Redevelopment Board has contracted with the planning and architectural firm of Charles Hilgenhurst and Associates of Boston to do the detailed land-use planning studies for the Mill Brook Valley area of the Town. Concurrently, the department has contracted with the planning and engineering firm of Metcalf & Eddy, Incorporated, of Boston, to write the new zoning bylaw.

Recommendations in the land-use report prepared by Charles Hilgenhurst have been used to design innovative land-use controls for the new zoning bylaw. This approach to the development of the new zoning bylaw and the Comprehensive Plan has required extremely close cooperation between the Redevelopment Board and the department. The staff of the department has met weekly with the Redevelopment Board to provide it with the technical advice necessary to develop this material. An extremely close working relationship has developed between the department and both consulting firms so that the consultants have become an extension of the staff of the department. This close working relationship insured that the detailed knowledge of the community embodied in the staff and the Redevelopment Board has been incorporated into the work of both consultants.

The department, with the assistance of the Redevelopment Board, will be explaining the proposals in the Mill Brook Valley plan and the new zoning bylaw to town meeting members in their precincts during the winter and spring of 1975. Presentation of the new zoning bylaw is planned for a special town meeting to be held late in the spring following completion of the Annual Town Meeting.

The significance of the new zoning bylaw and the Comprehensive Plan for the town cannot be overemphasized. Arlington is at a crossroads. Its land, which is a community's greatest resource, is used up. Therefore, its ability to

significantly increase the tax base is severely limited. The department's efforts during this past year have been directed towards defining precisely what can and should happen in the town in the foreseeable future. This work has included an analysis of the existing market potential for land uses in the town. It has included an analysis of the potential traffic impact of varying intensities of development. And finally, it has included an analysis with recommendations as to how and where new development should take place. The greatest percentage of the non-residential tax base of the community lies in the Mill Brook Valley, predominantly in Arlington Center and to a lesser extent in the Heights and at Lake Street. Opportunities for new development exist in and around these areas. However, the full potential of these opportunities can only be realized if the town is willing to demand that development be undertaken on its terms in accordance with a rigid plan.

This philosophy underlies the proposals that the Redevelopment Board and the Department of Planning and Community Development will be bringing to the Special Town Meeting in the spring. The new zoning bylaw will contain more effective techniques for site-plan review, design review, and environmental review of new developments. It will also contain incentive and bonus provisions. These techniques will permit new developments to exceed established standards provided the town receives certain amenities in return. This technique will assist in the proper development of the town.

A major effort on the part of the department has been devoted to work on the proposed extension of the MBTA Red Line from Harvard Square to Arlington Heights and beyond. The director worked with the MBTA on the selection of a consultant for this environmental impact analysis. In addition, the director has represented the town on the Joint Regional Transportation Committee and the Red Line working committee. These two committees supervise the planning and implementation of all transportation projects in Metropolitan Boston and in the Northwest Corridor. It is anticipated that a final determination as to the feasibility of the extension of the Red Line underground to Arlington Heights and beyond will be made during 1975.

The department and the Redevelopment Board have concluded that the extension of the Red Line through Arlington can have a positive impact on the community. A transit line, if implemented properly, can have a significant catalytic effect on development in a community. A transit station in Arlington Heights as well as one in Arlington Center can provide the type of increased activity that will encourage new appropriate development

in these two areas. However, it is important that the transit extension be undertaken in a way that is consistent with Arlington's long-term objectives for growth. To this end, the director has insured that Arlington's position of a covered transit line passing through Arlington to the vicinity of I28 is understood by all agencies involved in the planning process.

During the latter part of 1974, the department worked closely with the Town Manager and the Board of Selectmen developing an application for special revenue sharing funds. In August of 1974, the town became eligible for direct community development block grant funds. This program replaces many of the old categorical block grant programs. Unfortunately, the amounts of money are relatively insignificant: approximately \$169,000 in the first year; \$338,000 in the second; and \$507,000 in the third. The department's work with the Manager and the Selectmen has involved the development of an approach that will provide a maximum amount of leverage for these funds, since it is obvious that the funds, by themselves, will have little direct impact on community development in Arlington.

During the last part of 1974, the department has also been making a detailed cost benefit analysis of the Reed's Brook urban renewal project area. This area received a grant from the Commonwealth of Massachusetts. The department has studied it in considerable detail and expects to make a recommendation on the best use of the site to the Redevelopment Board, the Town Manager, and the Board of Selectmen during 1975.

Finally, the staff of the department has worked with numerous town boards and departments. It has met continuously with the Zoning Board of Appeals and provided that board with extensive background information on each case. It has developed a close working relationship with the Building Inspector. Finally, the department has started a newsletter for town meeting members and other interested municipal officials in the hopes that strong lines of communication can be established for the proper resolution of community development issues.

The department would like to express its appreciation for all the assistance it has received from town officials, boards and citizens. Hopefully, this close working relationship can continue in the future for the long-term betterment and proper growth of the town of Arlington.

Respectfully submitted,
Alan McClennen, Jr.
Director of Planning and
Community Development

Building Board of Appeals

The Building Board of Appeals held four hearings during 1974, two of which were denied and two granted.

Respectfully submitted,
Daniel A. Healy, Jr., Chairman
Alfred A. Scott, Secretary
Alfred C. Bridgens

Zoning Board of Appeals

The Zoning Board of Appeals heard 19 petitions for variance or special permit during 1974. A five year comparison in the case load is as follows:

1970	1971	1972	1973	1974
103	54	49	38	19

The lessening in the case load is due primarily to two factors.

Following adoption by Town Meeting of the so-called Sign By-Law, a large number of cases were presented to the Board regarding existing and proposed new signs. As time went on, most of such petitions were disposed of. Secondly, the Moratorium placed upon certain sections of the Town precluded considerable new construction and requests for variances by developers.

During 1974, most requests before the Board related to additions to private dwellings.

As of this report, the vaguaries and inconsistencies that have forced many petitioners to the Board for relief have not been resolved. We are still restricted by a By-Law and zoning map that bears little if any relationship to the needs of property owners of the present day. It would be difficult to measure the negative contribution that the so-called strip zoning along Massachusetts Avenue has

made to the present undesirable uses to which many of the commercial properties along the Avenue have been subjected.

Our Community is, of course, almost fully developed. We now must contemplate the re-use of property, an expensive proposition at best, and one which generates considerable controversy, a probable infusion of government funding, and considerable temporary inconvenience.

Such re-use of property is, however, an absolute necessity for our Town, if it is to meet its responsible obligations to its citizens.

Such a broad proposal necessitates a new approach to zoning and a new zoning map.

The Zoning Board of Appeals trusts that its voice, among many others, has assisted in bringing the Town through Town Meeting to the point where a new and viable Zoning By-Law and zoning map will be adopted this year.

Respectfully submitted,
John R. Kenny, Chairman
Robert J. Muldoon, Jr., Secretary
Francis DeRoche, Member
Robert Welch, Alternate Member
F. Leo Fitzpatrick, Alternate Member

Historical Commission

As a result of an application filed by the Commission, the Arlington Town Center District was placed in the National Register of Historic Places on July 18, 1974. The district is made up of the entire block bounded by Massachusetts Avenue and Pleasant, Maple and Academy Streets with the exception of the telephone company property. The district, therefore, includes the Town Hall, the Robbins Library, the Whittemore-Robbins House, the Town park and Dallin statue, the First Parish Unitarian Universalist Church, and the Old Burying Ground. The Commission is pleased to see this recognition officially extended to what is the historical, governmental and cultural focus of the Town.

Later in the year the Jason Russell House was also placed in the National Register through the efforts of the Arlington Historical Society, joining the Old Schwamb Mill, Arlington's first National Registry entry, placed there in 1971. Other National Register applications for Arlington's historic properties are being actively considered by the Commission.

The Commission was also pleased to hear of the Historical Society's announced plans to establish a museum to give the public greater access to its historical collection, and of the accumulation of honors won by the Old Schwamb Mill, Arlington's current major historic preservation project. The Mill was the scene, on June 1, of the dedication of a plaque honoring the millers and millwrights of New England who had operated mills on the site for three centuries, placed by the Massachusetts Society, Daughters of the American Colonists. The Commission was represented by its chairman in the ceremony.

There are many other properties of historical interest in the Town. Some will be listed in a brochure to be shortly published by the Commission. Many will appear in a Commission survey of the Mill Brook Valley, first undertaken for the Arlington Redevelopment Board. Expanded beyond the limits of the Board's study area to include the core of historical Arlington, the area on Massachusetts Avenue and immediately north of it, the survey qualified for a federal grant from the Department of Housing and Urban Development, allowing the employment of Ms. Peggy Henderson to assist Mrs. Martin Cohn, a Commission member, in the compilation of a detailed study. The Commission is now studying the most efficient way of bringing the results to the citizens of the Town.

One of the results of a preliminary Mill Brook Valley survey was a renewed interest in a Historic District Study Committee. At the suggestion of the Redevelopment Board, the Commission requested that the Selectmen appoint such a Committee, and this has been done. Two members of the Commission are also serving on that Committee.

Continuing a practice of past years, the Commission allocates a part of its budget each year to hiring for part-time work persons with skills in historical research to supplement the collecting of data and documents carried on by the Commission. This year Mrs. B.F. Somers, an Arlington resident and professional in deed and genealogical research, did valuable work in defining more precisely, and documenting, the early history of pre-Revolutionary structures still existing in the Town (though often in a modified form). These included the Whittemore properties in East Arlington, the Wayside Inn, the Deacon Joseph Adams house, the Benjamin Locke house, and the Tufts Tavern.

In other efforts to contribute to a spirit of historical interest in the Town, the Commission sponsored a showing of several films devoted to historical preservation at the Fox Library, is co-sponsoring, with several other historical groups, a lecture series devoted to the last hundred years of Arlington's life, and is meeting with other groups interested in Bicentennial activities.

Finally, the Commission noted with deep regret the deaths of two Associate Members during the year. Thomas F. Turnan was Chairman of the Town's Bicentennial Planning Committee, as well, and a member of numerous other local and regional historical groups. Frank K. Scott was also lay leader of the Pleasant Street Congregational Church. We will miss their counsel.

Bicentennial Planning Committee

The Arlington Bicentennial Planning Committee, appointed and funded under Article 70 of the Warrant for the 1969 Annual Town Meeting, and expanded under Article 90 of the Warrant for the 1973 Annual Town Meeting and Articles 93 and 94 of the Warrant for the 1974 Annual Town Meeting, is charged with planning the Town's observance of the two hundredth anniversary of the American Revolution.

The Committee has developed a number of plans over the past five years, for four years under the chairmanship of the late Thomas F. Turnan, and since his untimely death in February 1974 under the co-chairmanship of George P. Faulkner and Mrs. John A. Fitzmaurice. Primarily for the benefit of Arlington townspeople, rather than to attract tourists, the plans include celebrations as well as projects of more lasting quality. For some we have applied to the Massachusetts Bicentennial Commission for supplementary funding, and for one we have had a major financial commitment from the Metropolitan District Commission.

A Bicentennial Park is planned for both sides of Massachusetts Avenue at the Alewife Brook on land under the jurisdiction of the M.D.C. and previously used by automobile dealers. The park will improve that entrance to our community and will identify its historical significance. The M.D.C. will accomplish the grading and landscaping of the area, and the Town will provide for the purchase and planting of two blight-resistant elm trees, installation of a flag pole and flag, and improvements to the sidewalk on the north side of Massachusetts Avenue.

Another area worthy of special consideration during the Bicentennial period is the site of the Battle of the Foot of the Rocks on April 19, 1775, at the intersection of Massachusetts Avenue and Lowell Street. Funds appropriated by the 1974 Annual Town Meeting and supplemented by a \$2,000 matching grant from the Massachusetts Bicentennial Commission for the enhancement of this historic site have provided for plantings of white pine, birch and hardy perennial flowering plants, and for the installation of a bench and an historic marker. This park and the one at the Alewife Brook will be dedicated at appropriate Bicentennial ceremonies.

To encourage a wider knowledge of the history of Arlington from the time of its Indian beginnings and 1636 acquisition as a part of Cambridge and Charlestown, the Bicentennial Planning Committee is sponsoring two com-

panion volumes of written history. The first is a low cost reprint of the major Town history, Benjamin and William Cutter's **A History of the Town of Arlington** (1880). The second is the publication of the series of eight lectures that will be given monthly, beginning in the Fall of 1975, and covering the Town's history in its last 100 years.

The series of lectures and the publications are being coordinated by Norris H. Hoyt as the Arlington Bicentennial History Program. Eight Arlington residents, particularly knowledgeable about various aspects of our recent 100 years' history, will present their lectures for the public under the joint sponsorship of the Arlington Bicentennial Planning Committee, the Robbins Library, the Arlington Historical Commission, and the Arlington Historical Society.

There will be three celebrations: A Colonial Ball will be held in April 1975, and in May there will be several presentations of an original historical musical comedy, written by Peter J. Filichia, an Arlington High School teacher. A Bicentennial Track Meet sanctioned by the New England Amateur Athletic Union is scheduled for Sunday, June 8, 1975. These celebrations invite wide community participation, particularly the theatrical production.

During the peak Bicentennial months, a visitor information center will be maintained in the lobby of the Town Hall for the convenience of tourists as well as local residents. Historic maps, documents, and artifacts illustrating the development of the Town will be collected and exhibited at The Old Schwamb Mill in the Fall. Mementos of the Bicentennial celebration in Arlington will be available at both locations.

Also at the Town Hall are displayed the official American Revolution Bicentennial Administration flag and certificate, awarded to the Town of Arlington in November 1974 in recognition of the Town's active role in the nationwide Bicentennial celebration. The Town is an official Bicentennial Community.

The Arlington Bicentennial Planning Committee has maintained an office at the historic Old Schwamb Mill since the Summer of 1974. Located at the Foot of the Rocks on Mill Lane, off Lowell Street, the Mill is open during business hours on weekdays and part time on the weekends. The Bicentennial office is staffed part time by Maryellen Remmert, Project Coordinator, and the Committee will have full time volunteer office assistance dur-

ing the peak Bicentennial months. The telephone number is 646-1776. For one month beginning April 1, 1975 a second telephone will be in place to take calls referred by the Police Department relative to schedules of Bicentennial events, especially the Patriots' Day Parade. The number will be 646-1775.

The Committee meets regularly at monthly intervals and has had several open meetings this year, as in the past, to coordinate Bicentennial plans with organizations in the Town. Based on their schedules and the Town's, a Bicentennial calendar of events is in production.

PROPERTIES and NATURAL RESOURCES

Properties and Natural Resources

The Department of Properties and Natural Resources is responsible for the care and maintenance of all Town properties as well as a watch service for our environment. The department is organized as two divisions: a Natural Resource Division to care for grounds and environment and a Properties Division to care for buildings, etc.

Generally, 1974 was a year of mixed achievement and disappointment. Major achievements such as the construction of the Ottoson Junior High and Junior High East Schools, the completion of the first major playground renovations in many years and the continuation of the renovation program in public buildings were offset by the serious inflation and economic slowdown causing a reduction in building use and cultural care of our playgrounds, etc.

NATURAL RESOURCES DIVISION

Our parks, playgrounds and just plain open space received increased use throughout the year.

Major playground improvements took place at Summer St., Crosby Hardy, Parmenter, Locke and Peirce Playgrounds as well as the Cooke's Hollow Conservation Park. General maintenance was performed at all our areas with particular emphasis at Spy Pond Field, where the infield was rebuilt and North Union where a storm drainage system was installed as well as infield renovations on two diamonds completed. Due to serious vandalism, causing the clubhouse to become hazardous, we removed the building at North Union Field.

Our parks and playgrounds were utilized by all organized leagues from Arlington High School varsity athletics to adult softball and neighborhood scrub teams. The tendency toward organization on all levels of all sports has placed a close to unsupportable load on our existing facilities. The rather limited facilities at Warren A. Peirce Field at Arlington High School have forced varsity soccer and girls' field hockey to Thorndike Field. With the expansion of athletics at Arlington High School, existing and proposed Recreation Division programs and the serv-

ices provided quasi-private athletic programs, we are and will be hard pressed to service all.

Inflation cut drastically into our budget in the areas of gasoline, chemicals and fertilizers. Costs for chlorine for use at the Reservoir Beach and fertilizer for our turf areas increased over 100%. We must use these chemicals to keep our beach safe and our turf areas useful.

Late in the year funds were made available for construction of the foundation and paved walkway for the "Uncle Sam" statue to be erected this spring.

We continued our tree and flower planting programs with the planting of twenty-two floral islands and close to four hundred shade and ornamental trees.

Trees were planted on public ways, park and school property. As usual, we planted diverse species ranging from large shade trees to the flowering ornamentals. Extensive ornamental plantings were established at Cooke's Hollow and some of our major playgrounds, unfortunately many of these plantings were stolen, destroyed or damaged by vandals.

With a street tree population of over seventeen thousand trees we continue to lose many trees to disease, physical destruction by motor vehicles, and vandalism. 1974 was an average year, slightly improved over 1973 but still disheartening. The decline of our mature Sugar Maples, continued inroads of Dutch Elm Disease, general environmental difficulties and vandalism cost us two hundred sixty trees in 1974. All trees will be replaced where possible.

In the area of insect control some alarming cycles or trends seem to be developing. The Japanese Beetle was back in large numbers with serious infestations at Mt. Pleasant Cemetery and other areas in East Arlington. Complaints of wasps and bees were general throughout the Town with these insects present in unprecedented numbers. It appears that the Dutch Elm Disease, whose vector is the European and native bark beetle, is out of control. Throughout the state disease infections are increasing dramatically. The new control measure of antibiotics has failed to provide adequate control. As is our policy, only registered pesticides are used under the guidelines of the U.S. Dept. of Agriculture and State Pesticide Board.

It is apparent that some important insects cannot be adequately controlled with the pesticides now available. Poison ivy and other toxic plants were treated where possible.

Overall, it is my opinion that we are gaining an improved environment slowly but surely. It would be wrong to forsake our hard won gains for temporary economic relief which in the long run would be more costly to all.

PROPERTIES DIVISION

The outstanding factor in 1974 regarding properties was the expansion and renovation of the Ottoson and East Junior High Schools. These schools will provide a modern, educational plant for our children, with the only limitation remaining being playfields, due to site problems.

We continued our seven year renovation program with major work at the Cutter School.

The school was painted, lighting improved, fire protection work performed and half of the exterior windows were replaced with metal windows glazed with poly-carbonate, a glass substitute very difficult to break.

Our buildings, from the fifteen schools to libraries and the Town Hall, were in constant use both day and night. Our public buildings facilitate not only students but also service the Recreation Division, private groups as well as the general public for many night and weekend uses.

We continued the installation of improved fire detection in our public buildings. The Robbins House, Stratton School and School Department Administrative Offices were 100% protected, with additional protection work at other locations.

This protection work proved its worth on several occasions, giving early alarm, thus reducing fire damage to a minimum.

The major responsibility of this division is maintenance, just plain keeping the system working. Maintenance of all facilities from the large schools to the electric sewerage pumps of our sewerage system was performed. The day to day repairs to existing properties require most of our time.

Vandalism as usual, require many man hours to correct. Window breakage, interior damage at the High School and damage to Park and Recreation equipment is too prevalent in our Town.

We continued to install many vandal resistant types of equipment and material as well as protective lighting where proven necessary. Our lighting program has been curtailed due to the energy situation.

The maintenance and custodial staff, charged with the maintenance, housekeeping and safe operation of our buildings, performed the difficult, often depressing, duties necessary to run our facilities. The task of doing, redoing and often redoing again, work caused by vandalism creates a difficulty morale situation.

Our maintenance and custodial staff performed well the day to day tasks required.

In 1974, the meaning of the word "inflation" was demonstrated with a vengeance. In no other area has it hit harder than in building operation and maintenance. Materials from fuel, electricity, cleaning materials to plastic bags increased in cost prohibitively. In 1970, when I first assumed the position of "director," fuel costs in the School Department were \$85,000.; in the 1976 proposed budget we estimate \$350,000. will be required and this figure could go higher. Although fuel appears plentiful, we are still in emergency procedures and our supply must come from our 1972 contracted supplier.

It is more necessary that we know the energy budget of any new facilities to guarantee availability of fuel as well as plan for any increase in operating costs.

During the year I had the opportunity to work with various Town Committees and citizens groups. I would like to thank these groups for their advice and co-operation throughout the year.

In conclusion, I would like to thank the members of all Town Departments and the employees of the Department of Properties and Natural Resources who have been so willing with advice and assistance in this past year.

Very truly yours,

Frank P. Wright

Director of Properties and
Natural Resources

Cemetery Commission

The Cemetery Commissioners herewith submit their Annual Report for the year ending December 31, 1974.

The Cemetery Division is responsible for the care of the 51 acre Mount Pleasant Cemetery and the Old Burying Ground on Pleasant Street.

The restricted size of the present cemetery as well as the inability of expansion caused the Cemetery Commissioners to reassess the present cemetery to provide more burial space.

Steps were taken to remove some non-essential roadways, footpaths and open corners to provide more space. This program resulted in the gaining of enough land to provide for 1,152 interments in future years.

A new "Veterans' Area" was provided with 219 lots available.

In accordance with our abandoning non-essential roads, we continued our resurfacing of essential roadways, relocation of water lines and repairs to storm drains.

With the regaining of some land the Commissioners hope to extend the full operation of the cemetery up to 15 years.

There were 430 interments in Mt. Pleasant Cemetery during the year. 76 Single Graves, 36 Two Grave, 10 Three Grave and 1 Four Grave Lots were sold during the year.

Due to inflation and increased operating costs, rates were raised in 1973. The increase in rates allowed the cemetery to operate close to costs in 1974.

Several ornamental and shade trees were planted as well as locations established for flower beds.

The wood frame building, occupied by the past superintendent, was demolished to allow for additional burial sites.

The "Old Burying Ground" on Pleasant Street was maintained throughout the year. We are interested in further improvement and restoration work in this area to preserve its historic value.

We thank Town Manager Donald R. Marquis, Frank P. Wright the Director of Properties and Natural Resources and all Department Heads for their help during the year.

The following are the receipts for 1974:

Sale of Lots and Graves	\$ 15,855.00
Foundations	6,127.40
Opening Graves	36,505.00
Miscellaneous	309.37
Annual Care	2,421.40
Perpetual Care	26,316.00
Income from Funds	54,924.01
Total Receipts	\$142,458.18

Respectfully submitted,

John R. Keefe

Franklin W. Hurd

Daniel M. Hooley

Cemetery Commissioners

Conservation Commission

The Conservation Commission had a year of varied activities emphasizing concern for the preservation of Arlington's limited natural resources.

The Mill Brook Hydrological and Flood Plain Study, jointly sponsored by the Redevelopment Board and the Conservation Commission and prepared by the firm of C.E. Maguire, Inc., was completed in 1974.

During the year a great deal of time and effort was spent on the Cooke's Hollow Project. Phase II landscaping was completed in the spring of 1974. Cooke's Hollow was dedicated at a public ceremony held on October 19, 1974, and a plaque was installed commemorating the dedication of "Cooke's Hollow" Park.

In April and May, 1974, the Conservation Commission worked with the Arlington Public Schools Environmental Education Department on the Mill Brook Alewife Project. During this period, several Arlington Public School students worked to make Mill Brook habitable and navigable for the Alewives and also attempted to re-establish the Alewife run above the flume at Cooke's Hollow. The Commission looks forward to a continuation of this program next year.

On October 24, 1974, the Conservation Commission held a Wetlands Act Hearing on the proposed relocation of Mill Brook located under the proposed High School Academic Building.

The Identification, Delineation, and Mapping of Wetland Areas for the Town of Arlington sponsored by the Conservation Commission and prepared by the firm of Environmental Research and Technology, Inc., was completed in December, 1974.

The Commission expresses its appreciation to the Town Meeting for approving the transfer of Meadowbrook Park and four parcels of tax title properties to the Conservation Commission.

On December 4, 1974, the Commission submitted an application to the Commonwealth of Massachusetts Bicentennial Commission for funding for lighting and landscaping for Cooke's Hollow Park project under the provisions of Chapter 686 of the Acts of 1974.

The Commission expresses its appreciation to Mr. and Mrs. John Worden for giving the Town of Arlington a Conservation Restriction on a parcel of land owned by the Wordens. This is the first Conservation Restriction for the Town of Arlington which was approved by the Board of Selectmen and the Commonwealth of Massachusetts Department of Natural Resources.

The Commission received a check from the Department of Housing & Urban Development in the amount of \$6,927. This amount represents the final payment covering the H.U.D. assistance grant towards the acquisition of Mt. Gilboa.

The Commission also received a check for \$2,750 from the Commonwealth of Massachusetts Department of Natural Resources covering 50% of the acquisition costs covering the property acquired by the Conservation Commission on Forest Street.

During the year the Commission met with the Board of Selectmen, Town Manager, Redevelopment Board, Permanent Building Committee, Department of Planning and Community Development, Department of Properties and Natural Resources, Town Engineer, and other Boards, Commissions, and Organizations. We acknowledge their assistance which has been substantial and constructive, and look forward to their continued support in the future.

The Commission expresses its appreciation to the Arlington Conservation Commission Associate Members, the Arlington Garden Club, and the Arlington Conservation Association for their continued support to the Conservation Commission.

Mr. David D. Wallace, a member of the Commission, resigned in May, 1974. We express our gratitude to Mr. Wallace for his time and expertise furnished during his association with the Conservation Commission.

Respectfully submitted,
Robert R. Bryant, Chairman
Peter Braun
Elsie C. Fiore
Dora Reingold

PUBLIC SCHOOLS

School Committee

SCHOOL COMMITTEE

(l-r) — Richard A. Kraus, Doris M. Cremens, William A. Carey, Jr., Robert H. Murray, Dorothea W. Stein, Charles H. Lyons, Ann Klein, George D. Buckley, William J. O'Brien, Jr.

The School Committee, for the first time in several years, had no members retire and none was defeated in the Town election so membership stayed the same as last year.

A major commitment of School Committee and school administration, as well as other committees and administrations, was the time and energy spent on a proposed high school building program. This building program has been in the works since the Town Meeting of 1969 authorized the "Booz, Allen, Hamilton" study of Arlington's educational space.

The Town Meeting of 1974 defeated a proposal to transfer approximately four and one-half acres of land known as the Town Yard which would have increased the site of the high school for the proposed high school addition that would be presented at a future Town Meeting. This action necessitated a complete rethinking of the site and proposal as it had been designed up to that point. As part of the whole rethinking process, the School Committee continued to review enrollment projections and program needs for the high school.

As a result of this process, the buildings on the site were re-arranged somewhat in order to salvage as much as possible of what was originally being proposed on the larger site had the Town Yard land been transferred as recommended. The results of the review of enrollment projections and program needs were to propose to build

the high school for 2600 students and to have the program fit the building within the constraints of the outside walls but with some adjustments of inside space.

As mentioned above, the high school project took a major commitment of time as all top priorities should, and the School Committee sees the high school as the most important thing that the Town could do for itself in 1975. In preparation for the special Town Meeting in January 1975 to take up the high school proposal, the School Committee and school administration have planned, with the building committee, a series of informational meetings for the Town Meeting Members in each precinct. Together we have also planned general informational meetings on Saturdays at the high school along with tours of the high school and the two just renovated junior highs.

On the subject of junior highs, the anticipated September completion of their renovations did not happen and this caused the implementation of double sessions for both the junior highs and high school. The high school students used the high school in the morning and the junior high students used it in the afternoon. Both junior highs were far enough along in their work in December, that it was agreed to send the students involved in their respective schools after the Christmas vacation.

The School Committee adopted a recommendation to house all the satellite schools in the newly renovated

junior highs and will be working with the administration to ensure as much flexibility in program and style as is realistic in a public school setting.

The continued worsening economic situation this year caused the School Committee to make some budgetary decisions that were most difficult. The School Committee has been working toward a goal of developing a budget, including raises for staff and the continued implementation of the mandated Chapter 766 program for handicapped, that would be at last year's level. To do that, many items had to be cut completely and others cut back. The School Committee and the administration have been trying to cut those items and reduce those staff positions that would not destroy the school system. As of now, it looks like the School Committee will come close, if it does not in fact attain its budgetary goal as stated above.

The Committee wishes to recognize and thank those staff members who retired this year after ten or more years of service to Arlington's young people. They are:

Superintendent of Schools

(rt-lt) — William T. Gibbs, Superintendent, Richard J. McKay, Arnold F. Lanni, S. Jerry Trow

Even for those of us with a sense of and respect for historical events, a glimpse back at the year past presents a panorama of events still to come in the future in Arlington's quest for the achievement of excellence in public education. Construction of additions to our two junior high schools progressed along with extensive internal renovations. Projects at both Ottoson and East caused modifications of schedules during the school year 1973-1974 and the beginning of the academic years 1974-1975. In order to expedite construction from January through June of 1973-1974, the students from the Junior High East along with freshmen at our senior high school were on split session in the Downs' Building at the high school (freshmen were on a 7:00 a.m. to 12:15 p.m. schedule and the Junior High East occupied the building from 12:30 to 5:00 p.m.) To further expedite construction, Ottoson Junior High students observed a lengthened school day and the school was closed in early June to allow the contractors to proceed with construction and renovation. Regrettably a series of work stoppages which occurred on a regional and national level during the summer of 1974 prevented occupation of both Ottoson and East, and thus all of the students at the secondary level in the Arlington Public Schools were on double session, except for the satellite schools, with the beginning of the school year 1974-1975. As of January 6, 1975 our junior high schools were occupied and a reasonably complete program is now being offered to seventh and eighth graders; completion of construction

of the building additions is expected shortly so that full occupancy can take place. Arlington Senior High School has returned to a normal schedule as well with the beginning of 1975.

Continued progress occurred toward fulfillment of Arlington's "master plan" for school facilities as developed by the consulting firm of Booz-Allen and Hamilton and accepted by the Annual Town Meeting. Negotiations for the various land takings abutting the Arlington High School site were substantially completed — the three houses on Massachusetts Avenue, the gas tank, and the O'Keefe property. Working closely with the architectural firm of Rich, Lang and Cote, who have participated in the planning process with the Permanent Town Building Committee, school administration and staff for the past four years, final working drawings for the high school project have been completed. Site approval and educational specifications approval have been granted to the Town by the School Building Assistance Bureau of the Commonwealth's Department of Education, and the entire project is now being bid. Warrant articles will be considered at a January 27th Special Town Meeting to consider finalization of the next step in the long-range planning sequence, that of bringing Arlington Senior High School's facilities up to standard through an extensive addition and renovation project. The present final working drawings present a complex construction problem which would in effect create a new academic center adjacent to

the Downs' Building and which would bring a sense of unity to the present structure. Primary considerations in planning included community use for recreation, continuing education and adult education. Although a decision on the high school will already have been made as this report is being read, it is important to say that along with a series of educational and social effects, Arlington will most certainly either lose accreditation or be placed on probation by the New England Association of Schools and Colleges if favorable action is not taken. If history can be a guide to us in this matter, very serious adverse effects can result over a period of time not only within the schools in a community but also within the economic and social fabric of the total community at large with a loss of accreditation by a regional evaluating agency.

With the retirement of Mr. Otis R. Jason as Principal of the Junior High School East, a search committee of teachers, parents, students and administrators recommended to the School Committee the election of Mr. Charles F. Christensen, a teacher of science at the East, as the new Administrative Principal. Arlington's first Director of Reading in modern times was chosen from within our staff in the person of Miss Marilyn Flaherty. For the first time, Arlington now has a full complement of professional staff in reading, K-12, under Miss Flaherty, and she is our representative in the planning process of the "Right to Read Program" as it is being developed in the Commonwealth of Massachusetts. With the identification of the fact that large numbers of children in Arlington live in homes where languages other than English are spoken, a Coordinator of English as a Second Language, Mrs. Caroline Banks of Arlington, came to our staff. English as a Second Language falls under the direction of the Reading Department. Resulting from fundamental reorganization in Occupational and Career Education, Mr. Frank Prusik was elected Supervisor of Industrial Arts & Occupational Education, K-12 and Mrs. Thelma Sonnichsen became the new Supervisor of Home-Making Education, K-12; both had served long and faithfully as staff members within their respective departments at Arlington High School. Miss Mary McDonough, Assistant Freshman Housemaster and teacher of Physical Education, became Coordinator for Girls' Athletics and Related Activities at the secondary level. In the Department of Pupil Personnel Services, Mrs. Joan Duffy was elected to the position of Supervisor of Learning Disabilities, K-12, and Mrs. Jean Carey as Supervisor of Counseling Services, K-12. Both Mrs. Duffy and Mrs. Carey were staff members in that department for several years. Mrs. Judith Lombard joined the Arlington professional staff as Supervisor of Creative and Commercial Art, K-12. A new Coordinator of Arlington's METCO Program joined us in the fall in the person of Mr. James Russell.

Mr. George F. Fusco, Administrative Headmaster at Arlington High School, has indicated that the primary focus of the 1973-1974 academic year was the continued implementation of recommendations made by the Visiting Evaluation Team from the New England Association of Schools and Colleges in 1972. This implementation was effected by intra-departmental and by inter-disciplinary teams in special areas during the monthly release-time days. The faculty was able to meet well over 90% of the recommendations made; the other 10% were categorized as not applicable or in the process of being implemented.

Our two year report was submitted to the New England Council of Colleges and Secondary Schools to this end. The most important recommendation from the evaluation team to Arlington was the immediate need for updating our physical facilities. The Headmaster informed the Council of the progress being made on the building and renovation plans at the high school. We have not, as of this date, received word from the New England Council as to the result of our two year report. Our accreditation ended in June, 1974. It is hoped that we shall be given a probationary accreditation for one or two years, pending finalization of the building program. Should the request for funds for our building program fail to materialize at the coming Town Meeting, we are very fearful the New England Council will deny us further accreditation because of the obsolescence of our physical plant to the point where Arlington High School will not be meeting the educational needs of the students on the secondary level. We hope that this action will not come to this point, but it is a definite possibility.

Included in program changes was Arlington's participation in a national consortium with Phillips Andover Academy wherein high school students and staff attend short term institutes in advanced placement and enrichment experiences at Andover Academy. Arlington is one of approximately nine public schools throughout the nation participating. With staff from the Harvard Divinity School, Arlington began curriculum development in the study about religion in existing courses and in new offerings. We now offer 344 courses in our program of studies not including our alternative S.T.E.P. Program and the extensive Flexibly Scheduled School Day. Reacting to basic needs and in response to Chapter 622, a number of new interscholastic athletic teams were added for girls and we are planning intramural programs of a much more extensive nature in the future.

In the vital area of Occupational and Career Education clear patterns of programs are evident. As a result of an evaluation of the on-going program through indepth re-

search and planning, the staff, department heads and the Director, Mr. Ralph Gioiosa, have come up with a number of recommendations that will provide comprehensive programs which will serve the needs of all the students in the Arlington schools. In view of a correlated study of students' needs in Arlington, many of the conventional programs are now in the process of being terminated and new and sophisticated programs are taking their place. This involves updating the present facilities and the installation of new areas for instruction. The changes will lend themselves to an atmosphere of new and exciting learning opportunities. Our programs, in time, will serve as a vehicle to stimulate interest in and supply the means for creating more efficient and effective methods for providing students with saleable skills. The integration of students into all school programs will enable them to gain more meaningful experiences. Special attention should be given to non-college bound high school graduates, early school leavers and handicapped youth. The programs should attempt to influence the entire school curriculum at all levels for maximum impact.

The Ottoson Junior High's 1973-1974 school year was unique in many ways. Construction of new sections and repairs to older sections continued while school was in session. School hours were adjusted to allow an early closing in June. In spite of noises of construction, (blasting, steel riveting, power shovels, bulldozers, etc.) the school day within the building functioned without interruption. Students and faculty deserve much credit for their ability to adjust to the circumstances. The introduction and implementation of Public Law 766, for students with special needs, into the school was especially successful. Students not previously within regular classroom structure found acceptance and success. Performances by music groups (band, orchestra, boys' chorus and girls' glee club) took place in Arlington elementary schools and in several surrounding communities. The season was concluded at a spring concert by all groups at the Dallin School auditorium on May 29.

Change was also the salient theme for Junior High School East during the 1973-74 school year. It was in this year that the East expanded its cluster organization to include all subject teachers. The East's five inter-disciplinary cluster teams involved themselves in flexible planning and curriculum development with many benefits to the teaching and learning process evident by the close of the year. Two clusters participated in in-service training and future planning with Mrs. Alice Ansara, consultant to the Arlington Public Schools. These clusters concentrated on developing teaching strategies to be used in the new flexible space areas at Junior High School East. Other clusters at the East concentrated on team development

and began to exercise the flexibility and initiative which cluster organization encourages in teachers. A closer relationship between guidance personnel and the cluster teams with an increase in parent-teacher conferences was one result of these efforts. Experiments with flexible scheduling and a rotating schedule were tried. More field trips were scheduled and a program of elective mini courses and student activity periods were offered by the various cluster teams. Additionally the staff of 7A pilot cluster at the Junior High School East gave several presentations outside of school during the course of the year including a presentation at the New England Branch of the Orton's Society's annual convention. These presentations focused on working with special needs students in the context of the classroom and were especially relevant in light of Public Law 766.

In 1973-1974 both satellite schools continued to have a strong, experienced faculty, an enthusiastic student body and very active and committed parent support. The school-wide focus on reading and writing skills in the satellites has shown some very direct results. Extensive diagnostic tests have been given to all incoming seventh graders and their particular strengths and weaknesses are examined by the entire faculty. Approximately one fifth of the students were receiving specialized tutorial help. This aid ranged from one to one remedial writing work to advanced subject matter treatment for gifted students. In addition, social studies and science teachers have placed increased emphasis and stress on communication skills and have been involved in the overall school planning in the Language Arts (English) area. Parents have volunteered to staff the Library at Central School and have also contributed greatly to the supply of books and magazines for the school's use. The informality and flexibility of the satellites has aided the movement towards "reading and writing" without sacrificing the atmosphere which has been so characteristic of Spy Pond East and Central. The small size of the two schools and the dedication of the students, parents and teachers continued to provide for successful junior high school learning experiences. With the completion of new and flexibly designed space at the junior highs, it was voted to close the satellite schools for the fall of 1975 and to develop the essence of the programs within the Ottoson Junior High School. In effect, the students in the seventh grade at the satellite schools can choose to remain together at the Ottoson for the forthcoming year and students from throughout the town up to a total number of 125 may choose to participate in the satellite program at Ottoson.

It is important to indicate that the Unified Mathematics for elementary schools is now fully operative at all eleven elementary schools in Arlington. Design labs related to

USMES are functioning in all schools and it is the intent of those planning the project to integrate it into the current math and science programs. Working in close harmony with Dr. George Ladd of Boston College, a science center has been developed at Bishop School through the Environmental Education staff. On a K-3 basis, S.C.I.S. (Science Curriculum Improvement Study) is being implemented and in grades 4-6, E.S.S. (Elementary Science Study) is now the fundamental curriculum offering. The science staff is working closely with other coordinators and principals in the development of interdisciplinary programs in areas such as health and USMES.

With the implementation of Chapter 766, a variety of Learning Teams and Core Evaluating Teams have been established in all of our schools with resultant demands of time upon principals and professional staff. Then, too, there has been a need to modify and adjust the use of building space in order to meet the needs of children with special needs within our community. The development of programs in concert with other communities has placed some of the program centers within Arlington's elementary schools. For Example, special resource rooms have been developed within some of our schools in order to meet the needs of children who simply are unable to remain within a regular classroom in the mainstream for an entire day. Regular classroom teachers communicate daily with professional staff servicing resource rooms to provide continuity in sharing concerns and problems relative to special needs children for whom they share the vital teaching-learning process.

A variety of organizational patterns and instructional methods are being implemented in our elementary schools. A range of activities identifies the alternative methods of staffing, employing a variety of techniques such as clustering, team teaching, and phases of departmentalization, development of mini-courses in drama, speech, pottery, sketching, typing, games, knitting, crocheting, sewing, photography, oriental cooking, carpentry, and creating and making mathematics games. Extensive use of volunteers including students from Arlington's secondary schools and St. Anne's School (under the direction of Sister Mary Luke, Head of St. Anne's Math Department) has been tremendously helpful to our children.

One can see the great stride being made in several individualized reading programs at the elementary level (Scholastic, S.R.A., Ginn enrichment). Many of our children in the primary grades are working in the classrooms with Reading Resource Teachers, and at the intermediate level as well, extensive individualized programs for children have been developed. The various new programs

afford classroom teachers an opportunity to help diagnose areas where children will need assistance and profit from programs geared for enrichment. At the Hardy, SWIRL, a remediation program in speech, is in its second year in involving teachers and parents in a concentrated program developed to assist children with identified articulation problems. The Magic Circle concept was introduced into our schools last year after a town-wide workshop. The process of communication analysis causes circle members to share speaking time and to learn to listen attentively to other members of the circle. The program also can lead to the development of increased self awareness and to a mastery of problem solving skills.

The year 1974 brought a number of changes to the Pupil Personnel Services Department. The State mandated law for Special Education, Chapter 766, was implemented on September 1, 1974. In order to implement the Law, the staff had to do extensive in-service training and in some cases new staff were hired for the Arlington school system. One of the major thrusts of the new legislation was a comprehensive evaluation system for all students who are referred. It is estimated that between 300 and 400 students will be referred for evaluations before the end of the current school year.

Another area of concern that was brought into focus by Chapter 766 was that of pre-school programming. The law mandated that the school department initiate programs for all children from ages 3 through 21. In order to effectively do this, a questionnaire was sent to parents of children who are three and four years of age. The results of this questionnaire were analyzed to pick up potential school problems at a very early age. The pre-kindergarten screening for children entering school in September was also expanded and completed during 1974. Follow-up meetings on children who had difficulty with certain items on the screening were held with the parents and with the staff. Recommendations were made for several children not to enter the formal kindergarten program in the Fall of 1974. Alternate sites were found for these children and program components provided.

Arlington participated in three collaborative special education programs during 1974. Two of these programs were with Lexington, Arlington, and Burlington; one for Autistic children and one for Multiply Handicapped children. These programs enabled the three towns to provide service delivery for handicapped students at a much lower cost than if each town were to be providing its own program. It also enables the program to be of high quality. The Autistic program which is based at the Crosby School in Arlington will serve as a model for public school programming for Autistic students. The

third collaborative between Watertown, Belmont, and Arlington for the Trainable Retarded students is in its fourth year. This program has proved very successful in meeting the needs of many of our low functioning students.

In-service programs were held during the year 1974 for members of the Pupil Personnel Services staff, regular classroom teachers, volunteers, parents and other concerned citizens. The utilization of in-service training and volunteers has added a very positive dimension to the total Pupil Personnel Services program. Services in the areas of Guidance, Counseling, Speech and Learning Disabilities were expanded and continue to provide the quality service for the children in the Town of Arlington.

The Pupil Personnel Services staff is working in close co-operation and collaboration with other agencies such as Mystic Valley Mental Health Center, Arlington Youth Consultation Center, and Massachusetts Rehabilitation Commission to provide alternate programming and serv-

ices for students beyond the range of the typical public school programs. We believe that in working with other agencies we will be able to offer a more comprehensive total program for the school age child in Arlington.

To Arlington's professional teaching staff, administrators, public officials, our children, boys and girls and our young men and women, and to the residents of this community, I extend my deepest thanks and appreciation for the continued support rendered during the year past. A special note of appreciation must be written in recognition of the special effort of the Permanent Town Building Committee. I am appreciative of the dedication manifested by the nine individuals who comprise the School Committee for the hours upon hours they have given as representatives of the Town of Arlington.

Respectfully submitted,

William T. Gibbs

Superintendent of Schools

Minuteman Regional Vocational Technical School District

The Minuteman Regional Vocational Technical School District Committee is pleased to submit its fourth annual report to the citizens of the District's member towns of Acton, Arlington, Belmont, Boxborough, Carlisle, Concord, Lexington, Lincoln, Stow, Sudbury, Wayland and Weston.

The year 1974 marked the culmination of the District's initial planning phase with the opening of classes for the boys and girls comprising the Minuteman Regional Vocational Technical School's first ninth grade class.

Unfortunately, delays in the construction of our new building forced us to begin the year in temporary quarters in the Rose Hawthorne School Building in Concord, which we were able to rent from the Archdiocese of Boston.

Our first class was selected in the spring of 1974 from approximately 600 applicants. A quota based on the ratio of high school students from each member town to the total number of high school students in the District was established for each town. For those towns which exceeded their prescribed quotas, 80% of the first class was chosen by a random selection procedure. The remaining 20% were chosen by the school systems of the towns in which those students reside. On October 1, 1974 the enrollment in the Minuteman School, by towns, was as follows:

Acton	— 42	Carlisle	— 8	Stow	— 14
Arlington	— 95	Concord	— 42	Sudbury	— 43
Belmont	— 40	Lincoln	— 12	Wayland	— 36
Boxborough	— 11	Lexington	— 78	Weston	— 5

Despite the more limited space in the Rose Hawthorne building and our new personnel, a full range of academic courses was offered, including mathematics, science, communications arts (English), and human relations (social studies). Repeating five-week introductory courses in eight of the following vocational and technical areas are also required of each ninth-grade student:

Building Trades	Foods
Power Mechanics	Distributive Education
Machine Shop	Health Services
Metals Fabrication	Commercial Art
Horticulture	Electronics
Graphic Arts (Printing)	Instrumentation

Prior to the beginning of school, the students were tested, interviewed and evaluated by the Minuteman faculty, with the assistance of consultants from Boston University, so that to every extent possible they could be placed in vocational and technical programs most compatible with their interests and aptitudes.

Highlights of first months of actual operation of the new school included:

1. The successful implementation and "shake-down" of our transportation system, a complex operation for transporting all of our students to and from school each day.
2. Implementation of an innovative individualized student reporting system which was completed and sent to each parent in November.
3. An open house evening at the Rose Hawthorne building attended by approximately 500 parents to acquaint them with the educational activities in which their sons and daughters are participating, with demonstrations, exhibits and an opportunity for questions and answers.
4. A second parents evening held in December featuring faculty presentations and the initial steps towards creating a parents' organization.
5. Initiation of core evaluations for our students with special needs and the implementation of instructional programs to meet those needs.
6. The initiation of student activities, including election of class officers and a student advisory committee, a fall dance attended by about 300 students, the regular publication of a school newspaper, and a raffle conducted by the Distributive Education students which made the first contribution to the treasury of the class of '78."

Progress on the new school building has been slow but steady, and the construction is of very high quality. In December, the School Committee decided to accept beneficial occupancy of the completed areas of the building so that students, faculty and staff could begin 1975 in their permanent quarters. The task of moving materials, equipment and people was accomplished during the winter vacation and school opened on January 13 at 758 Marrett Road, Lexington, the School's permanent address.

In December, collective bargaining negotiations commenced with the Minuteman Regional Faculty Federation, Local 3191, American Federation of Teachers, AFL-CIO. Kenneth Bilodeau was selected to act as the School Committee representative, with Ruth Wales as alternate. Attorney Alan S. Miller has been employed as negotiator for the School Committee.

Looking ahead to 1975, our administration and faculty are developing programs and curricula for the present students when they become tenth graders in the fall, and are continually reviewing and evaluating the present year's program so as to institute improvements as the need is seen and to prepare for next year's incoming ninth graders. The new year will see the completion of our building, further refinements in and automation of our budgeting and business systems, and the doubling of our enrollment to about 900 students. Also, we look forward to developing and, hopefully, implementing new plans for additional services the District can offer on a regional basis to its twelve member towns.

As with any new organization, the challenges at Minuteman have been many, and progress has at times seemed frustratingly slow. The school administration, faculty, and staff have shown extraordinary dedication and willingness to exert every effort to ensure the success of our first operational year. We are grateful to Superintendent-Director Sains and all of his staff for their hard work.

During the year four new members joined the Committee: George Cormier from Stow, William Fitzgerald from Lexington, and Frederick Heinrich from Wayland to fill the vacancies noted in our 1973 report, and George Banfield from Boxborough to replace Roger Morse, who

resigned during the summer. Roger was an original member of the School Committee and of its Building Subcommittee. His contributions will be missed.

The entire School Committee and staff express their appreciation and thanks to the officials, parents and citizens of our member towns for their support and efforts on behalf of the new school.

Respectfully submitted,

Minuteman Regional Vocational
Technical School District Committee

Community Safety

Fire Department	17A
Police Department	23A
Dog Officer	37A

FIRE DEPARTMENT STATISTICAL REPORT

Deputy Chiefs are assigned to the following phases of Fire Prevention in addition to their regular firefighting duties.

Deputy Chief Francis M. Doherty - Mercantile Inspections

Deputy Chief Irving L. Proctor - Quarterly Inspections of Nursing Homes, Symmes Hospital and theatres.

Deputy Chief Charles J. Doherty - Periodic inspection of all rooming houses and the quarterly testing of fire alarm boxes.

Deputy Chief Robert E. Kelly - In charge of Fire Alarm Center and communications, fire alarm dispatching and operation thereof.

Deputy Chief Warren R. French - Fire Protection and Inspections - Director of Civil Defense.

HOSE TEST

The annual testing of fire hose was carried out under supervision of the Training Division at Spy Pond Field, Eastern Avenue Playground and Highland Station. Auxiliary fire pump was used for testing purposes. Members of the Department received instruction in operation of said pump.

PUMP TESTS

The annual service test of all pumping apparatus was conducted under direction of D. Barter, Department Master Mechanic, and the Training Officer, Captain James J. Kelly, during the month of September.

EDUCATIONAL

Four firefighters attended a four-day course at Harvard University on "Emergency Care and Transportation of the Sick and Injured" in June 1974 sponsored by the American Academy of Orthopaedic Surgeons.

Fire Science programs are in progress at local community colleges (Massachusetts Bay, Bunker Hill, and Middlesex Community Colleges) designed to provide advanced fire training for fire service personnel. Many members of the Fire Department are presently attending these courses and receiving credit hours leading to an Associate Degree in Fire Science. One firefighter received his Associate Degree in 1974.

DETAILS

Firefighters were detailed to stand-by duty as a precautionary measure to guard against fire during welding operations or when blow torches were used for repairs in schools or public buildings.

Firefighters were detailed at Park Circle Station when in quarters during school hours for traffic duty in that section to protect school children.

Fire Department Statistical Report

The Highland Station was used for registration of voters and voting purposes by the Town. Park Circle Station was used by a few civic groups as a meeting place.

Apparatus participated in the following parades:

Patriots' Day - Arlington and Lexington - April 15
Gay Ninety Parade - Arlington - May 17
Memorial Day - Arlington - May 27
Country Fair and Kids Parade - Belmont - October 2
Veterans' Day - Arlington - October 28

APPARATUS AT HEADQUARTERS

Engine 1 (1954 Mack) 1000-gallon pumping unit
Engine 4 (1973 Maxim), 1250-gallon pumping unit
Ladder 1 (1961 Mack), tractor attached to 1968 Seagrave trailer,
100' aerial ladder truck
Rescue 1 (1971 Ford) (Emergency transportation vehicle) put in service
August 9, 1971
Life Boat (1952) 14 foot metal boat with 1973 outboard motor and lifesaving
equipment
Chief's car (1973 Ford)
Deputy's car (1973 Ford)
Fire Prevention car (1971 Ford)
Utility pick-up truck (1971 Ford)

APPARATUS AT HIGHLAND STATION

Engine 2 (1965 Mack), 1000-gallon pumping unit
Ladder 2 (1952 Seagrave), non-tractor drawn 65' aerial ladder truck
Ladder 3 (1949 Seagrave), spare 750-gallon pumping unit and a non-
tractor drawn 65' aerial ladder

APPARATUS AT PARK CIRCLE STATION

Engine 3 (1954 Mack), 1000-gallon pumping unit
One (1) 500-gallon auxiliary trailer pump (1941 Buffalo), Engine 15

AUDITOR'S REPORT

I have examined the books and accounts of the Trustees of the Elbridge Farmer Fund for the year ending December 31, 1974, and find that the report of the Trustees for that year showing Income of \$2,814.09, Disbursements of \$2,808.00 and balance of Undistributed Income on December 31, 1974 of \$6.09 fairly represents the transactions of the Fund for that year and the Investment Account total of \$53,101.15 is correct.

I have examined the securities composing the Investment Account as follows:

Arlington Five Cents Savings Bank - Savings Account #503398..	\$ 3,000.00
Arlington Five Cents Savings Bank - Term Deposit Cert. #690..	5,000.00
Cambridge Savings Bank - Savings Account #601218.....	3,423.38
Cambridge Savings Bank - Term Deposit Cert. #951018.....	8,000.00
Cambridgeport Savings Bank - Savings Account #235129.....	1,000.00
Cambridgeport Savings Bank - Term Deposit Cert. #840.....	4,000.00
Charlestown Savings Bank - Savings Account #1509265.....	1,282.77
Charlestown Savings Bank - Term Deposit Cert. #70501480.....	4,000.00
South Boston Savings Bank - Savings Account #244542.....	1,000.00
South Boston Savings Bank - Term Deposit Cert. #1511-2.....	4,000.00
\$10,500.00 U. S. Treasury Bonds due 2/15/80.....	10,395.00
838.118 shares of Fund for Mutual Depositors, Inc.....	8,000.00
(value 12/31/74 \$5.87 per share or \$4,919.75)	

\$53,101.15
